The Colonial Politics of Hope Marjo

Lindroth, Heidi Sinevaara-Niskanen, 2022-04-28 Through analyses of cases in Australia Finland Greenland and elsewhere the book illuminates how states appropriate hope as a means to stall and circumscribe political processes of recognising the rights of indigenous peoples The book examines hope in indigenous state relations today Engaging with hope both empirically and conceptually the work analyses the dynamic between hope politics and processes of rights and recognition In particular the book introduces the notion of the politics of hope and how it plays out in three salient cases planned constitutional changes that would finally recognise the indigenous peoples of Australia the lengthy debate on the ratification of ILO Convention 169 Concerning Indigenous and Tribal Peoples in Independent Countries in Finland and the prospect of Greenland's independence after its gaining self government in 2009 Juxtaposing these contexts the book illustrates the ways in which hope has become a useful political tool in enabling states to sidestep the peoples claims for justice and redress The book puts forward insights on the power of hope by definition future oriented in diminishing the urgency of present concerns This is hope's most potent colonial force This book brings together studies on indigenous state relations social scientific discussions on hope and critical postcolonial feminist and governmentality analyses

Hidden Agender Gerard Casey, 2021-04-19 In Hidden Agender Gerard Casey develops a timely and provocative defence of free speech and toleration against the transgenderist ideology that has infiltrated so much of the media the political establishment and the law Opposing ideas not individuals Hidden Agender provides a compelling critique of the transgender ideologists and trans activists and the new reactionary form of legal intolerance of our right to free thought and free speech As a libertarian Casey believes that we should be free to say and do whatever we wish provided that in so doing we do not perpetrate violence or threaten to perpetrate violence against the person or property of another The fundamental objection is rather to individuals being forced on pain of legal or social sanctions to believe or to pretend to believe what to them is patently false namely that a man can become a woman or a woman a man and to be legally obliged to treat those who claim to have transitioned from one sex to another as if they really had managed to do so Drawing on extensive research both scientific and anecdotal Hidden Agender is a robust defence of free speech and tolerance against the combined forces of prejudice wokeness and legal intimidation
