Defining Australian Citizenship Brian Galligan, John Chesterman, 2016-10-18 During our first century as a nation citizenship for a majority of Australians has meant the enjoyment of progressive political social economic and legal rights Yet many groups in our society have been denied the usual benefits of citizenship including the vote equality before the law freedom of speech religion and movement health care education and a minimum wage Unlike that of the United States of America Australia's constitution provides no definition of the rights and obligations of its citizens John Chesterman and Brian Galligan have searched Commonwealth and State legislation parliamentary debates law reports official correspondence United Nations conventions and works of historical scholarship and provide surprising evidence to show that the concept of citizenship in Australia is an elusive but crucial one It pervades Australian politics and has determined the course of individual lives in many different areas including female suffrage the White Australia Policy compulsory voting Aboriginal rights equal pay sex discrimination wartime internment and Menzies attempt to ban the Communist Party In *Defining Australian Citizenship* they reveal for the first time the complexity of Australian legislation as it has tried over the years to accommodate changing ideas about exactly what citizenship entails and who is or is not eligible for it **Australian**

Citizenship Brian Galligan, Winsome Roberts, 2004 Australians have much to celebrate in the hundred years of their citizenship but also a good deal to be ashamed of The authors argue that good citizenship depends on moral citizens able to discern between what is worthy of respect and pride and what is shameful in national life Galligan and Roberts from Uni of Melbourne *Citizenship in Transnational Perspective* Jatinder Mann, 2017-06-15 This edited collection explores citizenship in a transnational perspective with a focus on Australia Canada and New Zealand It adopts a multi disciplinary approach and offers historical legal political and sociological perspectives The two overarching themes of the book are ethnicity and Indigeneity The contributions in the collection come from widely respected international scholars who approach the subject of citizenship from a range of perspectives some arguing for a post citizenship world others questioning the very concept itself or its application to Indigenous nations *Multiple Nationality And International Law* Alfred Michael Boll, 2007 This book is a comprehensive overview of multiple nationality in international law and contains a survey of current State practice covering over 75 countries It examines the topic in light of the historical treatment of multiple nationality by States international bodies and commentators setting out the general trends in international law and relations that have influenced nationality While the book's purpose is not to debate the merits of multiple nationality but to present actual state practice it does survey arguments for and against multiple nationality and considers States motivations in adopting a particular attitude toward the topic As a reference work the volume includes a detailed examination of the nature of nationality under international law and the concepts of nationality and citizenship under municipal law The survey of State practice also constitutes a valuable resource for practitioners *Does History Matter?* Klaus Neumann, Gwenda Tavan, 2009-09-01 This

volume of essays represents the first systematic attempt to explore the use of the past in the making of citizenship and immigration policy in Australia and New Zealand Focussing on immigration and citizenship policy in Australia and New Zealand the contributions to this volume explore how history and memory are implicated in policy making and political debate and what processes of remembering and forgetting are utilised by political leaders when formulating and defending policy decisions They remind us that a nuanced understanding of the past is fundamental to managing the politics and practicalities of immigration and citizenship in the early 21st century **Australian Constitutional Law and Theory**
