Delta Force 2operation Strang:

The Eleventh Day Anthony Summers, Robbyn Swan, 2012-08-14 FINALIST FOR THE PULITZER PRIZE For most living Americans September 11 2001 is the darkest date in the nation's history But what exactly happened on 9/11 Could it have been prevented And what remains unresolved Here is the first panoramic authoritative account of that tragic day from the first brutal actions of the hijackers to our government's flawed response from the untruths told afterward by U.S. officials to the elephant in the room of the 9/11 Commission's report the clues that point to foreign involvement New York Times bestselling authors Anthony Summers and Robbyn Swan write with access to thousands of recently released official documents raw transcripts fresh interviews and the perspective that can come only from a decade of research and evaluation Riveting revelatory and thoroughly sourced The Eleventh Day is updated for this edition with new reporting on a development that the former cochairman of Congress's 9/11 probe calls the most important in years This is the essential one volume work required reading for us all Essential The Wall Street Journal Meticulous comprehensive an extraordinary synthesis John Farmer 9/11 Commission senior counsel This wide angle look examines the personalities behind the terror plot U.S. intelligence blunders the toxic environmental impact on first responders the march to war and gray areas in the 9/11 Commission Report The Washington Post The best available general account of 9/11 soberly written judiciously weighed meticulously sourced The Sunday Times

Operation C3 John Burt, 2023-05-04 Burt offers an account of how an invasion might have unfolded and its consequences by drawing on parallel events at other times and places Definitely worth a read The NYMAS Review When writing his memoirs after World War II German Generalfeldmarschall Albert Kesselring stated Italy's missing her chance to occupy the island of Malta at the start of hostilities will go down in history as a fundamental blunder It's easy to see why this tiny 95 square mile island held such a prominent place in the war's Mediterranean Theater Located almost halfway between the British bases of Gibraltar and Alexandria Egypt and just 60 miles south of Sicily her airfields and naval base stood directly in the path of Italy's and her German partner's line of communication from Europe to North Africa Operation C3 is a detailed study of the Axis 1942 plan to invade and take the island of Malta The book examines the future combatants up to the Axis capture of Tobruk in June 1942 The book then provides a realistic assessment of what would have had to happen if the Axis had decided to launch the invasion Operation C3 then provides a day by day battle narrative of the invasion as if it had occurred on Saturday August 15 1942 The battle narrative is based on the combatant's actual plans from the Italian and Maltese archives and the realistic appraisal of what could have happened when those plans collide A Reality Analysis section is added after the battle narrative to discuss what really happened after Tobruk fell and why Operation C3 was never attempted
