## **Demented The World Of The Opera Diva:**

**Demented** Ethan Mordden,1990 *The Women of Quyi* Francesca R. Sborgi Lawson,2017-02-17 Drawing substantially on original ethnographic fieldwork from the 1980s and 1990s Lawson demonstrates how the women of quyi a community of Chinese female singers in Republican Tianjin successfully negotiated their sexuality and vocality in performance Owing to their role as third person narrators the women of quyi bridged the gender gap in Chinese performance creating an androgynous persona that allowed them to showcase their voices on public stages places that had been previously unwelcoming to conventional female performers This is a story about female storytellers who sang their way to respectability and social change by minimizing their bodies to allow their voices to be heard **Diana's Dogs** Ed Ifkovic,2007-10 The Guinness Book of World Records calls her the best selling female singer in history Billboard named her the Celebrity of the Century Diana Ross lead singer of the most popular girl group of the 1960s and later a consummate solo artist has been in the public eye for over four decades From 1964 when *Where Did Our Love Go* rose to number one on the pop charts to the present day she has been the ultimate diva an artist worshiped by fanatical fans yet pilloried in the press for her temper tantrums and untoward demands Ed Ifkovic delivers his own spin on this international celebrity an idiosyncratic collection of short pieces that create a portrait of the mercurial star From a Detroit housing project to a Connecticut mansion who is this woman who exacts such loyalty from her fans and such vitriol from her detractors There are pieces on Diana s tantrums true but also jottings on the homes she s lived in the food she eats the cars she drives even her role as muse for writers There is a collection of poetic similes commentators have employed to describe her as well as a mind boggling catalogue of garish tabloid headlines This off beat book admittedly an obsessive fan s unembarrassed send up equal parts delight and censure is a spirited yet sardonic tale that also explores the integration of black music into the white mainstream Frankly Diana led that noble charge What the author delights in is the unorthodox observation and gossipy tidbit that accompanied that revolution

**The Oxford Handbook of Music and the Body** Dr. Youn Kim,Dr. Sander L. Gilman,2019-08-01 The presence of the phenomenological body is central to music in all of its varieties and contradictions With the explosion of scholarly works on the body in virtually every field in the humanities the social as well as the biomedical sciences the question of how such a complex understanding of the body is related to music with its own complexity has been investigated within specific disciplinary perspectives The Oxford Handbook of Music and the Body brings together scholars from across these fields providing a platform for the discussion of the multidimensional interfaces of music and the body The book is organized into six sections each discussing a topic that defines the field the moving and performing body the musical brain and psyche embodied mind embodied rhythm the disabled and sexual body music as medicine and the multimodal body Connecting a wide array of diverse perspectives and presenting a survey of research and practice the Handbook provides an introduction into the rich world of music and the body **DEMENTED** Ethan Mordden,1990-03-15 Demented opera slang for an insanely

great performance is Ethan Mordden s provocative inside look at opera s great women singers from Beverly Sills to Birgit Nilsson to Leontyne Price 24 photographs      **Embodied Voices** Leslie C. Dunn,Nancy A. Jones,1994 As a material link between body and culture self and other the voice has been endlessly fascinating to artists and critics Yet it is the voices of women that have inspired the greatest fascination as well as the deepest ambivalence because the female voice signifies sexual otherness as well as sexual and cultural power Embodied Voices explores cultural manifestations of female vocality in the light of current theories of subjectivity the body and sexual difference The fourteen essays collected here examine a wide spectrum of discourses including myth literature music film psychoanalysis and critical theory Though diverse in their critical approaches the essays are united in their attempt to articulate the compelling yet problematic intersections of gender voice and embodiment as they have shaped the textual representation of women and women s self expression in performance
