Democracy, Asian Values, and Hong Kong Bob Beatty, 2003-08-30 On July 1 1997 China took control over Hong Kong where Britain had begun a process of introducing democracy Beatty examines the process of democratization in Hong Kong with the argument that democratic development will continue despite being under Chinese rule Through a series of 128 interviews with 89 Hong Kong elites from 1997 2002 including legislators and party leaders as well as participant and direct observation of 15 campaigns for the Legislative Council in 1998 Beatty analyzed political leaders beliefs and commitment towards democratic development and institutions and put them into the context of the post handover environment Evidence from the interviews is used to test the proposition that adherence to Asian values undermines democracy and Beatty probed Hong Kong elites about their beliefs regarding the rule of law freedom of the press civil liberties and the possible trade offs between economic development and democratization A major finding from the in depth interviews is that while Hong Kong political elites reject the Singapore model and the Asian Values argument many do believe in trade offs between economic development and democratization Beatty also offers sharp insight into the thinking of Hong Kong political elites and transcends the particular politics of Hong Kong and delves in the broader subject of elite beliefs and attitudes An important analysis for scholars students and other researchers involved with China Hong Kong Asian politics and political values and political development in general

Stepan, 2001 This volume brings together new and classic articles by one of the leading scholars in comparative politics The articles focus in particular on the nature of contemporary democracy and its prospects The volume begins with a personal analysis of the intellectual and often political reasons why and how Stepan chose to engage in certain critical arguments over the last thirty years The volume is then divided into three sections each with a distinctive theme state and society constructing polities and varieties of democracies The introduction and articles ask whether both for intellectual and political reasons there are strong grounds for questioning both Rawls and Huntington on religion and democracy Riker on federalism and Gellner on multinationalism The volume contains articles on civil society political society economic society the military and a usable state The possibility of multiple and complementary political identities is argued for The incentive systems and political practices of the three macro constitutional frameworks for democratic government parliamentarianism presidentialism and semi presidentialism are compared and contrasted

**Citizenship Education in Asia and the Pacific** W.O. Lee, David L. Grossman, Kerry J. Kennedy, Gregory P. Fairbrother, 2013-11-11 It is a great pleasure to present this book edited by a distinguished team at the Hong Kong Institute of Education and with excellent contributors from nine countries in the region and beyond The book is a

truly comparative work which significantly advances conceptual understanding The comparisons undertaken are at many levels and with different units for analysis One chapter undertakes comparison in two cities Hong Kong and Guangzhou three chapters make comparisons between two countries South Korea and Singapore Solomon Islands and Vanuatu South Korea and China and five chapters undertake comparisons across the whole region Other on individual countries or in one case on a single school In addition several chapters examine the attitudes and roles played by individuals and groups within societies The book is thus an admirable example of the vitality of the field of comparative education in selecting different units for analysis and in examination of issues from diverse angles Within the book moreover readers will find a fascinating array of settings and environments On the one hand for example is Japan with its relatively homogenous culture a population of 126 million and a strong national identity based on language and history On the other hand is Solomon Islands which has a population of just 400 000 scattered over 1 000 islands approximately 90 indigenous languages and major social problems arising from culture clashes economic forces political dynamics and legacies of colonialism

**The Idea of Democracy in the Modern Era** Ralph Ketcham, 2004 Although the last half of the twentieth century has been called the Age of Democracy the twenty first has already demonstrated the fragility of its apparent triumph as the dominant form of government throughout the world Reassessing the fate of democracy for our time distinguished political theorist Ralph Ketcham traces the evolution of this idea over the course of four hundred years He traces democracy's bumpy ride in a book that is both an exercise in the history of ideas and an explication of democratic theory Ketcham examines the rationales for democratic government identifies the fault lines that separate democracy from good government and suggests ways to strengthen it in order to meet future challenges Drawing on an encyclopedic command of history and politics he examines the rationales that have been offered for democratic government over the course of four manifestations of modernity that he identifies in the Western and East Asian world since 1600 Ketcham first considers the fundamental axioms established by theorists of the Enlightenment Bacon Locke Jefferson and reflected in America's founding then moves on to the mostly post-Darwinian critiques by Bentham Veblen Dewey and others that produced theories of the liberal corporate state He explains late nineteenth century Asian responses to democracy as the third manifestation grounded in Confucian respect for communal and hierarchical norms followed by late twentieth century postmodernist thought that views democratic states as oppressive and seeks to empower marginalized groups Ketcham critiques the first second and fourth modernity rationales for democracy and suggests that the Asian approach may represent a reconciliation of ancient wisdom and modern science better suited to today's world He advocates a reorientation of democracy that de-emphasizes group or identity politics and restores the wholeness of the civic community proposing a return to the Jeffersonian universalism that which informed the founding of the United States if democracy is to flourish in a fifth manifestation

*Demystifying Asian Values in Journalism* Xiaoge Xu,2005 Few studies have fully examined Asian values in journalism and the related debate in terms of their contexts evolution features limitations contributions and implications Little research has comprehensively looked into the components and origins of Asian values in journalism although their existence has been sporadically investigated Consequently the topic has been much mystified Placed in the theoretical framework of ideological domination and control the book is designed to demystify the topic by addressing nine questions regarding the above mentioned areas through documentary research and historical comparative analysis It was discovered that Asian values in journalism reflected efforts to construct Asian press models and were also used to chart directions and dimensions for the press development in Asia although the values were conceptually elusive and theoretically confusing Another finding was that the Asian values in journalism are not purely Asian but do share journalistic traditions One major finding is that the Asian values in journalism debate is an extension of the ongoing battle between Asia and the West for ideological dominance and control in journalism Instead of sporadic and unsystematic studies the author proposes an integrated approach in the search for Asian values of journalism and the construction of Asian press models American Journal of Chinese Studies ,2004 **Human Rights** Unesco,1998 Poverty as a Crime **European Journal of East Asian Studies** ,2001 'Asian Values' as Reverse Orientalism Michael Hill,2000 *Asian Survey* ,1961
