

EUROPE DEMOCRACY INDEX

Russia's score saw the worst change of any country in the ranking. The country's breach of international law and full-scale invasion of Ukraine exacerbated pre-existing issues on the home front.

Türkiye's lowest ranking category, according to the report, is **civil liberties**, followed by **electoral process and pluralism**.

Democracy In Europe

**Marieke van Doorn, Roel von
Meijefeldt**

Democracy In Europe:

Democracy in Europe Thomas Erskine May, 1877 **Democracy in Europe** Vivien A. Schmidt, 2006-10-20 Democracy in Europe is about the impact of European integration on national democracies It argues that the oft cited democratic deficit is indeed a problem but not so much at the level of the European Union per se as at the national level This is because national leaders and publics have yet to come to terms with the institutional impact of the EU on the traditional workings of their national democracies The book begins with a discussion of what the EU is a new form of regional state in which sovereignty is shared boundaries are variable identity composite and democracy fragmented It then goes on to examine the effects of this on EU member states institutions and ideas about democracy finding that institutional fit matters The compound EU in which governing activity is highly dispersed among multiple authorities is more disruptive to simple polities like Britain and France where governing activity has traditionally been more concentrated in a single authority than to similarly compound polities like Germany and Italy But the book concludes that the real problem for member states is not so much that their practices have changed as that national ideas and discourse about democracy have not The failure has been one of the communicative discourse to the general public which again has been more pronounced for simple polities despite their potentially greater capacity to communicate through a single voice than for compound polities where the coordinative discourse among policy actors predominates *Democracy in Europe* Larry Siedentop, 2000 Britain and much of Europe is hypnotized by the struggle between integrationists and nation starters and is set to drift towards unification with little idea of its constitutional options In this text Siedentop sets out the key issues for those who wish to construct a Europe that is prosperous fair and free rejecting knee jerk hostility to the idea of a united states of Europe Siedentop argues that the main enemy of freedom at national level is precisely the kind of unaccountable dirigiste and bureaucratic government now developing in Brussels In its place he champions a steady and openly debated progress towards sovereign democratic institutions which combines a Jeffersonian commitment to democracy with a very British attachment to gradual reform and pragmatic government *Avenir de la Démocratie en Europe* Philippe C. Schmitter, Alexandre H. Trechsel, Council of Europe, 2004-01-01 This publication examines a number of challenges and opportunities for democracy and democratic institutions throughout Europe and makes 28 recommendations for reforms intended to improve government efficiency transparency and accountability Topics discussed include the impact of forces such as globalisation European integration migration and technological change as well as issues such as citizenship political discontent cultural identity and protest representation political parties and civil society and decision making **Democracy, Europe's Core Value?** Marieke van Doorn, Roel von Meijenfeldt, 2007 **Reflections on the Future of Democracy in Europe** Council of Europe. Directorate General of Political Affairs, 2005-01-01 This publication contains papers presented at a conference held in November 2004 in Barcelona and organised by the Council of Europe The purpose of the conference held to mark the end of the three year integrated project Making democratic institutions work was

to discuss issues relating to the challenges and opportunities facing governments in Europe to strengthen democratic reform and encourage greater public participation Topics covered include promoting inclusive elections financing of political parties popular initiatives and referendums and how modern communication technologies can affect the democratic process

Society and Democracy in Europe Silke I. Keil, Oscar W. Gabriel, 2013 This comparative study examines what kinds of societal forces shape European relationships towards democratic political life in contemporary Europe Drawing on data from the European Social Survey ESS the book develops a theoretical perspective on the relationship between social structure and democracy and links this to research on social capital and political behaviour The authors explore the impact of individual social characteristics on a broad range of the Europeans political attitudes and behaviours They investigate how the social position of the individuals in the European societies contributes to the explanation of the national and cross national patterns of political engagement addressing trust in the social and political environment life satisfaction party preferences and attitudes towards migration and migrants Providing detailed descriptions of the similarities and differences among the various European publics at the beginning of the 21st century *Society and Democracy in Europe* will be of strong interest to students and scholars of European politics political participation and political sociology

The Oxford Handbook of Local and Regional Democracy in Europe John Loughlin, Frank Hendriks, Anders Lidström, 2012-11-08 The Oxford Handbook of Local and Regional Democracy in Europe analyses the state of play of democracy at the subnational level in the 27 member states of the EU plus Norway and Switzerland It places subnational democracy in the context of the distinctive Anglo the French the German and Scandinavian state traditions in Europe asking to what extent these are still relevant today The Handbook adapts Lijphart s theory of democracy and applies it to the subnational levels in all the country chapters A key theoretical issue is whether subnational regional and local democracy is derived from national democracy or whether it is legitimate in its own right Besides these theoretical concerns it focuses on the practice of democracy the roles of political parties and interest groups and also how subnational political institutions relate to the ordinary citizen This can take the form of local referendums or other mechanisms of participation The Handbook reveals a wide variety of practices across Europe in this regard Local financial systems also reveal a great variety Finally each chapter examines the challenges facing subnational democracy but also the opportunities available to them to enhance their democratic systems Among the challenges identified are Europeanization globalization but also citizens disaffection and switch off from politics Some countries have confronted these challenges more successfully than others but all countries face them An important aspect of the Handbook is the inclusion of all the countries of East and Central Europe plus Cyprus and Malta who joined the EU in 2004 and 2007 This is the first time they have been examined alongside the countries of Western Europe from the angle of subnational democracy

The European Union and the Promotion of Democracy Richard Youngs, 2002-01-03 This book assesses European Union policies aimed at encouraging democratization in East Asia and the North African and Middle

Eastern States within the Euro Mediterranean Partnership these two regions being the source of some of the strongest conceptual challenges to Western liberal democracy since the end of the cold war The book addresses theoretical debates over the international dimensions of political change and the EU s characteristics as an international actor The factors both driving and inhibiting European democracy promotion policies are explored The book outlines the EU s distinctive bottom up philosophy aimed at constructing the socio economic and ideational foundations for political liberalization but argues that the EU has in practice failed to develop a fully comprehensive and coherent democracy promotion strategy *Direct Democracy in Europe* Zoltán Tibor Pállinger, Bruno Kaufmann, Wilfried Marxer, Theo Schiller, 2007-12-07 Dieser Band gibt einen Überblick zu den Entwicklungen der Demokratie in den europäischen Ländern und zum europäischen Stand der Forschung Citizens and Democracy in Europe Sergio Martini, Mario Quaranta, 2019-07-06 This book provides an innovative and in depth analysis of how attitudes towards democracy and political institutions differ across 31 countries in Europe and how these attitudes have fluctuated over time After addressing conceptual and measurement issues about the evaluative dimension of political support the authors develop a unique framework assessing the role of the institutional format the quality of the political process macro economic conditions and inequality to explain trends and differences in political satisfaction and trust The book further explores how education employment and electoral status create gaps in political support *Citizens and Democracy in Europe* will be of interest to students and scholars in comparative politics political sociology and public opinion

Democracy in Europe Heidrun Abromeit, 1998-10-01 Since the beginning of the European Community students of international politics and of international resp Constitutional law have been wondering what kind of animal it is and will be once integration has been completed Whereas the EC Treaty of 1957 stressed the economic aspects and envisioned a steady and dynamic progress towards a Single Market it was conspicuously silent about the political implications of integration and the new democratic order What is needed so the author argues in this powerful and original contribution to the debate on democratisation of the European Union is a flexible system that supplements the European decision making process with various direct democratic instruments such as the use of referenda These would serve to increase the accountability of the politicians without demanding or requiring a definitive resolution of the exact constitutional status of the Union

Democracy in Modern Europe Jussi Kurunmäki, Jeppe Nevers, Henk te Velde, 2018-06-19 As one of the most influential ideas in modern European history democracy has fundamentally reshaped not only the landscape of governance but also social and political thought throughout the world *Democracy in Modern Europe* surveys the conceptual history of democracy in modern Europe from the Industrial Revolutions of the nineteenth century through both world wars and the rise of welfare states to the present era of the European Union Exploring individual countries as well as regional dynamics this volume comprises a tightly organized comprehensive and thoroughly up to date exploration of a foundational issue in European political and intellectual history The State of Democracy in Central and Eastern Europe Ramona Coman, Luca

Tomini,2017-10-02 *The State of Democracy in Central and Eastern Europe* brings together scholars specialising in the study of Central and Eastern Europe and provides a comprehensive analysis of some of the major issues in the democratic make up of the EU's new member states. The book covers the main dimensions of the state and contributors discuss questions about the development of democracy in Central and Eastern Europe over the past twenty years. What is the present state of democracy in Central and Eastern Europe more than twenty years since the end of communist regimes? What is the actual functioning of the political institutions of these countries? How is political participation structured and what role do political parties play in these democracies? What guarantees are provided to limit governmental powers and abuse? What is the role of the judicial system and the relationship between justice and politics? How can we evaluate the EU's influence regarding democratic consolidation? What is the role of the public opinion? This book was originally published as a special issue of *Europe Asia Studies*.

Democracy in the New Europe Christopher Lord, Erika Harris, 2017-09-16 Behind the facade of democracy are a number of unanswered questions, foremost among them how to relate democracy beyond the state especially at the EU level to democracy within the state. This important new text provides a wide ranging assessment of the theory and practice of democracy at all levels in Europe today.

The Americana, 1923 [Germany and Europe](#) Graf Harry Kessler, 1923

Human Dignity and Democracy in Europe Bedford, Daniel, Dupré, Catherine, Halmai, Gábor, Kapotas, Panos, 2022-03-17 This collection identifies and discusses the connections between human dignity and democracy from theoretical, substantive and comparative perspectives. Drawing on detailed analyses of national and transnational law, it provides timely insights into the uses of human dignity to promote and challenge ideas of identity and solidarity.

After the storm Luuk van Middelaar, Philippe Van Parijs, 2015-10-17 In his years as president of the European Council, Herman Van Rompuy met with an impressive series of leading thinkers to discuss the future of Europe. He set the bar high by asking them to tell him something he had not heard before. The philosophers, economists, political scientists and legal experts who took up his invitation met the challenge brilliantly. In openhearted and stimulating discussions they expressed both fears and hopes for the European project at a point when Europe, with the euro crisis, found itself in a raging storm. At the request of the president, some of these thinkers have now put their ideas and solutions on paper. Herman Van Rompuy has written the introductory essay. The central topical theme of this collection is the democratic legitimacy of Europe and its institutions. Where one sees too little European democracy, another sees too much Brussels presumption. The euro crisis exposed the tension between democracy and a currency union and between the nation states of the EU. The nationalist reflexes that accompany these tensions are visible today in a new and dangerous storm that is indirectly addressed in the book: the migration crisis. All this makes *After the Storm* indispensable reading for anyone concerned about Europe.

Contributors: Herman Van Rompuy, Rami Brague, Maurizio Ferrera, Dieter Grimm, Jürgen Habermas, Turkuler Isiksel, Ivan Krastev, Koen Lenaerts, David Miller, Dani Rodrik, Pierre Rosanvallon, Fritz Scharpf, Paul Schefer, Amartya Sen, Larry Siedentop.

Frank Vandebroucke **Democracy in the European Union** Erik Oddvar Eriksen, John Erik Fossum, 2000 It is widely believed that the European Union suffers from a democratic deficit This then raises a fundamental question can democracy ever be applied to decision making bodies beyond the nation state How we conceive of democracy itself is essential to how we understand its deficit and this book with its impressive array of highly influential contributors presents a theoretical approach which enables us to think of democracy at a supra national level Bringing together the ideas of major thinkers such as Bellamy Habermas Joerges and Schlesinger Democracy in the European Union presents pioneering and original work on a key issue in contemporary politics With in depth analysis from high calibre writers this book is a unique contribution to debates about democracy and the European Union for all upper level undergraduate and graduate students of politics European studies democratic studies and international relations as well as professionals and policy makers
