*Democratic Control of the Military in Postcommunist Europe* A. Cottey, T. Edmunds, 2001-11-28 This major comparative study examines the challenges that the countries of postcommunist Central and Eastern Europe have faced in securing democratic control of their armed forces and establishing civilian control of defence policy This book explores how the interaction of the common challenges of postcommunism and the diverse circumstances of individual countries shape civil military relations in this changing region Detailed country case studies written by leading experts compare the experiences of the Central European states such as Poland and Romania the Baltic republics the former Yugoslavia republics Russia and Ukraine

**Civil-Military Relations in Post-Communist Europe** Timothy Edmunds, Andrew Cottey, Anthony Forster, 2013-10-18 Fifteen years after the fall of communism we are able to appraise the results of the multi faceted postcommunist transition in Central and Eastern Europe with authority This volume specifically addresses the fascinating area of Civil Military relations throughout this transitional period The countries of the region inherited a onerous legacy in this area their armed forces were part of the communist party state system and most were oriented towards Cold War missions they were large in size and supported by high levels of defence spending and they were based on universal male conscription Central and eastern European states have thus faced a three fold civil military reform challenge establishing democratic and civilian control over their armed forces implementing organisational reform to meet the security and foreign policy demands of the new era and redefining military bases for legitimacy in society This volume assesses the experiences of Poland Hungary Latvia Romania Croatia Serbia Montenegro Ukraine and Russia in these areas Collectively these countries illustrate the way in which the interaction of broadly similar postcommunist challenges and distinct national contexts have combined to produce a wide variety of different patterns of civil military relations This book was previously published as a special issue of *European Security*

*The Routledge Handbook of Civil-Military Relations* Thomas C. Bruneau, Florina Cristiana Matei, 2012-11-12 This new Handbook offers a wide ranging internationally focused overview of the field of civil military relations The armed forces are central actors in most societies and are involved in many different roles Amongst other activities they engage in peace operations support the police in fighting crime support civilian authorities in dealing with natural disasters and fight against terrorists and in internal conflicts The existing literature on this subject is limited in its discussion of war fighting and thus does not do justice to this variety of roles The Routledge Handbook of Civil Military Relations not only fills this important lacuna but offers an up to date comparative analysis which identifies three essential components in civil military relations 1 democratic civilian control 2 operational effectiveness and 3 the efficiency of the security institutions Amalgamating ideas from key thinkers in the field the book is organized into three main parts Part I Development of the Field of Study Part II Civil Military Relations in Non Democratic or Nominally Democratic Countries Part III Civil Military Relations in Democratic and Democratizing States Issues and Institutions This new Handbook will be

essential reading for students and practitioners in the fields of civil military relations defense studies war and conflict studies international security and IR in general

**The Politics of Military Reform in Post-Suharto Indonesia** Marcus Mietzner, 2006 This study discusses the process of military reform in Indonesia after the fall of Suharto's New Order regime in 1998 The extent of Indonesia's progress in this area has been the subject of heated debate both in Indonesia and in Western capitals Human rights organizations and critical academics on the one hand have argued that the reforms implemented so far have been largely superficial and that Indonesia's armed forces remain a highly problematic institution Foreign proponents of military assistance to Indonesia on the other hand have asserted that the military has undergone radical change as evidenced by its complete extraction from political institutions This study evaluates the state of military reform eight years after the end of authoritarian rule pointing to both significant achievements and serious shortcomings Although the armed forces in the new democratic polity no longer function as the backbone of a powerful centralist regime and have lost many of their previous privileges the military has been able to protect its core institutional interests by successfully fending off demands to reform the territorial command structure As the military's primary source of political influence and off budget revenue the persistence of the territorial system has ensured that the Indonesian armed forces have not been fully subordinated to democratic civilian control This ambiguous transition outcome so far poses difficult challenges to domestic and foreign policymakers who have to find ways of effectively engaging with the military to drive the reform process forward This is the twenty third publication in Policy Studies a peer reviewed East West Center Washington series that presents scholarly analysis of key contemporary domestic and international political economic and strategic issues affecting Asia in a policy relevant manner

*Towards Security Sector Reform in Post Cold War Europe* Wilhelm N. Germann, 2003 Security Sector Reform SSR is a broad and ambitious notion that concerns establishing and improving those security relationships and architectures most commonly associated with liberal democracy Starting from the premise that there is no universally applicable model for SSR this volume explores the question how best to evaluate SSR in European context and analyses the conditions for determining and confirming criteria of success in this regard The systematic gathering analysing and evaluating of international expertise in democratic control management and reform of the security sector is one of the main functions of the Geneva Centre of the Democratic Control of Armed Forces DCAF

*Global Politics of Defense Reform* Thomas Bruneau, Harold Trinkunas, 2008-02-15 This volume analyzes the impact of key global trends on civil military relations by examining defense reform processes since the end of the Cold War Civil military relations are reconceptualized to emphasize three dimensions civilian control of the armed forces effectiveness in carrying out roles and missions and efficiency in use of resources The key global trends that affect these dimensions are the globalization of new norms and ideas the democratization of governance technological innovation and economic liberalization By focusing on defense reform processes this book examines cases where civil military relations can potentially alter quite rapidly under the

impact of global trends By comparing cases across Europe Asia North and South America this book argues that democratization and globalization have had an outsized role in determining the timing and sequence of defense reform and the consequent impact on civil military relations

*The A to Z of Bulgaria* Raymond Detrez,2010-05-10 Few states have fought as hard or as long to be established as that of the Republic of Bulgaria The Bulgarians have over the centuries created their own principalities kingdoms and republics only to have them crushed by stronger entities including the Byzantine and Ottoman Empires While recently the communist regime was largely dominated by and overly submissive to the Soviet Union Fortunately about 15 years ago a new republic arose which began revamping the economy reviving the political life and forging a new place in Europe The A to Z of Bulgaria contains more than 600 cross referenced entries on Bulgarian historical periods places terms organizations events and personalities The number of entries dealing with historical figures and events has been considerably enlarged and all of the entries of the first edition that have remained were carefully updated The newest insights of Bulgarian historiography as practiced in Bulgaria and abroad are also reflected In addition
