Following World War Two federal legislation allowed leaders in American cities to implement aggressive programs of urban renewal. Designed to revitalize neighborhoods blighted by decades of neglect, such programs often razed a city's oldest and poorest neighborhoods, replacing them with newly built residential and commercial districts. Sacramento's period of urban renewal began in earnest in the 1950s when city planners and redevelopment officials formulated plans to redevelop the city's West End area. Within the West End was the Sacramento's skid row area, an economically depressed district of inexpensive hotels that was historically home to thousands of single male transient agricultural workers. Although skid row had a reputation for moral and social decay, city leaders recognized its value as a source of cheap labor for area farms. Nonetheless, the area was to be demolished and redeveloped. Through the 1950s, the Sacramento Redevelopment Agency formulated a series of proposals for the relocation of the city's skid row population to a new skid row neighborhood that was to be built on the model of the old one. The redevelopment agency abandoned its plan in 1959 and never instituted a new plan to relocate skid row residents displaced by redevelopment in the 1950s and 1960s. In the end, the displaced skid row population gradually relocated independently to other impoverished areas in Sacramento and elsewhere.

West End Boys explains and contextualizes the reasoning behind planners' proposals for a new skid row neighborhood and tracks the effects the failure to implement those proposals had on Sacramento's skid row population. Historical and sociological secondary sources provide the foundation for this analysis. Another valuable body of source material is the collection of studies and plans issued by the Sacramento Redevelopment Agency, the Sacramento City Planning Commission, and other local agencies. In addition, press accounts from the era provide insight into the events surrounding the demolition of Sacramento's skid row.

West End Boys uses these sources to illuminate a topic left largely unexamined by historians.

Everything Now Rosecrans Baldwin, 2021-06-15

A LOS ANGELES TIMES BESTSELLER NAMED A BEST CALIFORNIA BOOKS OF 2021 BY THE NEW YORK TIMES

A provocative, exhilaratingly new understanding of the United States' most confounding metropolis: not just a great city but a full-blown modern city-state. America is obsessed with Los Angeles. And America has been thinking about Los Angeles all wrong for decades on repeat. Los Angeles is not just the place where the American dream hits the Pacific. It has its own dreams. Not just the vanishing point of America's western drive. It has its own compass. Functionally, aesthetically, mythologically, even technologically, an independent territory defined less by distinct borders than by an aura of autonomy and a sense of unfurling destiny. This is the city-state of Los Angeles. Deeply reported and researched, provocatively argued and eloquently written, Rosecrans Baldwin's Everything Now approaches the metropolis from unexpected angles, nimbly interleaving his own voice with a chorus of others from canonical L.A. literature to everyday citizens. Here Octavia E. Butler and Joan Didion are in conversation with activists and astronauts, vampires and veterans. Baldwin records the stories of countless Angelenos discovering people both upended and reborn by disasters, natural and economic, following gospels of wealth or self-help or personal destiny. The result is a story

of a kaleidoscopic vibrant nation unto itself vastly more than its many many parts Baldwin s concept of the city state allows us finally to grasp a place Los Angeles whose idiosyncrasies both magnify those of America and are so fully its own Here space and time don t quite work the same as they do elsewhere and contradictions are as stark as southern California s natural environment Perhaps no better place exists to watch the United States s past and its possible futures play themselves out Welcome to Los Angeles the Great American City State At Risk of Homelessness Karin Ringheim,1990 This volume represents a new theoretical and empirical approach to the study of homelessness Rather than focusing on the behavioral characteristics and social deviance of the homeless themselves the incomes rents and demographic characteristics of a population of renters who are at risk of homelessness are examined Based on a study of changes in four U S metropolitan areas over an eight year period in the supply of low cost and affordable housing Karin Ringheim contends that the extent of homelessness in individual areas is not simply a function of the extent of poverty in those areas Rather she argues the increase in number and change in composition of the homeless population is a direct result of the severity of the housing squeeze
