Gray,2014-06-26 Strategy and Defence Planning Meeting the Challenge of Uncertainty explores and examines why and how security communities prepare purposefully for their future defence The author explains that defence planning is the product of interplay among political process historical experience and the logic of strategy The theory of strategy best reveals both the nature and the working of defence planning Political ends strategic ways and military means all fed by reigning if not always recognized assumptions organize the subject well with a template that can serve any time place and circumstance The book is designed to help understanding of what can appear to be a forbiddingly complex as well as technical subject A good part of the problem for officials charged with defence planning duties is expressed in the second part of the book s title The real difficulty which rarely is admitted by those tasked with defence planning duty is that defence planning can only be guesswork But because defence preparation is always expensive not untypically is politically unpopular yet obviously can be supremely important claims to knowledge about the truly unknowable persist In truth we cannot do defence planning competently because our ignorance of the future precludes understanding of what our society will be shown by future events to need The challenge faced by the author was to identify ways in which our problems with the inability to know the future in any detail in advance the laws of nature in other words may best be met and mitigated Professor Gray argues that our understanding of human nature of politics and of strategic history does allow us to make prudent choices in defence planning that hopefully will prove good enough **New York Times Saturday Book Review Supplement** ,1943-05 **Army-Navy-Air Force Register and Defense Times** ,1914 *Sale-catalogues of Second-hand Books on Sale by Henry Sotheran & Co* Sotheran, Henry and Co,1871 Journal of Health, Physical Education, Recreation ,1963 **The Engineer** ,1907 Journal of Education ,1884 *Scientific American* ,1907 *The American and English Annotated Cases* ,1914 American and English Annotated Cases ,1914 **Annotated Cases, American and English** ,1914 **New York Times Saturday Review of Books and Art** ,1969 The Southwestern Reporter ,1912 The National Engineer ,1925 Vols 34 contain official N A P E directory **Geographical Teacher** ,1925 **The Geographical Teacher** ,1924 *The Dance* ,1930
