Democracia La:

De la democracia, la libertad y la república en Francia Damián Isern y Marcó, 1892 **¿Cómo se sostiene la democracia? La resiliencia democrática en México** Miguel Armando López Leyva, Alejandro Monsiváis, 2024-03-30

De qué depende que la democracia perdure. Una pregunta como esta no es lo reviste un interés abstracto o puramente intelectual. Hoy en día es una pregunta clave para entender los desafíos que enfrenta la democracia en numerosos países. México entre ellos. El propósito de los estudios reunidos en esta obra es analizar precisamente la capacidad de resistencia de la democracia mexicana ante la transformación política promovida por el gobierno de Andrés Manuel López Obrador. La premisa compartida es que el régimen político enfrenta la amenaza más real e inmediata de retroceso autoritario en al menos tres décadas. De qué depende que la subversión democrática progrese se detenga o se revierta. Para responder a esta pregunta recurrimos al concepto de resiliencia democrática, un concepto que designa a la capacidad del sistema político, sus actores e instituciones de resistir el embate autoritario. Si bien las respuestas son tentativas y las conclusiones son inciertas, quienes participamos en este proyecto esperamos contribuir al debate público en torno a la democracia mexicana desde la investigación en ciencias sociales. La obra se organiza en cuatro secciones empezando por una introductoria a los conceptos de democracia, autocratización y resiliencia democrática en el caso de México. La primera sección temática analiza los mecanismos asociados al avance de la autocratización en el régimen político promovidos desde el Poder Ejecutivo. La segunda sección examina la capacidad de resiliencia de instituciones independientes y autónomas que son esenciales para hacer valer la legalidad y los contrapesos democráticos. La tercera sección hace lo propio a partir de diversos estudios acerca de las fuentes civiles, sociales y políticas de crítica, oposición y resistencia a las acciones del gobierno o ciertas políticas públicas. Las conclusiones ofrecen una reflexión que integra las diversas vertientes de la problemática. *Diccionario de la Democracia* Patricio Marcos, 2012-10

El Diccionario de la Democracia contiene la teoría y la ideología de los regímenes democráticos, sus antecedentes, orígenes, principios, modalidades de deliberación y leyes, sus instituciones clave y variedades acorde con la clase social que los dirige y el arreglo institucional correlativo. Asimismo, compara sus principios, leyes e instituciones con otros regímenes, particularmente con sus opuestos: las oligarquías o gobiernos de pocos, pero también con la república, la tiranía y la realpolitik. Las razones de Estado que permiten su conquista, conservación y estabilidad; las fuentes internas y externas que los amenazan; las maneras de corromperse y las revoluciones que los afectan. Trata también de los usos, costumbres y caracteres democráticos, inventar a los rasgos de la vida democrática por sí mismos y comprobados con los de los ricos, las clases medias y los tiranos, hasta detallar las relaciones que sostienen entre sí dirigentes y dirigidos, hombres y mujeres, jóvenes, maestros y alumnos, ciudadanos y animales, por el impacto que la libertad e igualdad popular tienen en la vida pública y privada de sus pueblos. Parte medular del mismo es la exposición de las doctrinas, dogmas, leyes e instituciones del modelo liberal moderno de la democracia, un credo que se analiza en calidad de justificación del *nouveau régime* por parte de sus ideólogos modernos.

From Text to Political Positions Bertie Kaal, Isa Maks, Annemarie van Elfrinkhof, 2014-05-15 *From Text to Political Positions* addresses cross disciplinary innovation in political text analysis for party positioning Drawing on political science computational methods and discourse analysis it presents a diverse collection of analytical models including pure quantitative and qualitative approaches By bringing together the prevailing text analysis methods from each discipline the volume aims to alert researchers to new and exciting possibilities of text analyses across their own disciplinary boundary The volume builds on the fact that each of the disciplines has a common interest in extracting information from political texts The focus on political texts thus facilitates interdisciplinary cross overs The volume also includes chapters combining methods as examples of cross disciplinary endeavours These chapters present an open discussion of the constraints and disadvantages of either quantitative or qualitative methods when evaluating the possibilities of combining analytic tools
