**Democratic Backsliding in Poland** Adam Szymanski, Lukasz Zamecki, Renata Mienkowska, 2023-10-24 According to various independent research institutions Poland is now seen as the fastest destabilizing democracy. After 1989 Poland was often presented in the international public discourse as an example of the successful political and economic transition away from Communism. However, since 2015 Poland has been associated with terminologies not previously linked with this country: nationalism, populism, or breaking the rule of law. The authors of the book analyze the reasons for democratic backsliding in Poland in a more comprehensive and systematic manner. Special attention is paid to political polarization, which is a substantial threat to democracy. This volume shows the de-democratization of Poland from various perspectives: cultural and historical, political institutions, party politics, and media. Can the liberal model of democracy remain intact with Poland, and what role does the EU play in all of this? The book should be a required reading not only for scholars and students studying democratic decline but also for everybody who wants to understand what is happening currently in Poland.

*Democratic Government in Poland* G. Sanford, 2002-07-16 Democratic government has now been entrenched in Poland. An increasingly significant European actor, Poland presents problematic but also stimulating challenges to new NATO and EU associates. This authoritative overview examines in depth the constitutional and governmental framework in Poland since 1989 and its central political institutions, mechanisms, and actors. Sanford demonstrates how the governmental system evolved pragmatically during the 1990s to cope with modernization and consolidated a viable independent statehood consensually around Poland's hardy constitutional values.

**Democracy In Poland** Raymond Taras, Marjorie Castle, 2002-04-20 Ever-changing election rules, a highly fluid party system, a constitution considered illegitimate by more than one major political actor, polarized political elites, and a system of corruption that has grown up together with the young democracy itself—these characterize contemporary Polish politics. At the same time, Poland is frequently identified as the most successful example of a transition from communism to capitalism, having led this series of world-changing transitions. It has distanced itself from a turbulent history as a pawn in Eastern Europe's international politics to become a leading candidate for membership in the exclusive European Union club. As Polish democratic politics evolves, it is taking unexpected forms and producing equally unexpected results. Through a comprehensive analysis of politics in this young European democracy, Marjorie Castle and Ray Taras explain the complexity and uncertainty of political processes and outcomes in Poland. Poland's past: the flawed Second Republic established after World War I, as well as the imperfect independence in the Soviet shadow following World War II's devastation, dramatizes the unique historic opportunity it was given in 1989 to determine its own political future and perhaps eventually become a major European power. Choices made in 1989 and thereafter would not only construct a new democracy but shape and limit its possibilities. The primary focus here is on contemporary politics: what the fundamental political cleavages are, whether parties adequately represent popular

interests who the political elites are and what games they play what influence the Catholic Church still holds in an aspiring Western style secular republic and what policy challenges face Poland in the future Inimitable political leaders changing political arenas and complex policy making processes come to life through a fascinating narrative characterized by an insider's insight

**Democracy in Poland** Marjorie Castle, Ray Taras, 2018 **Poland's Foreign and Security Policy** Ryszard Zięba, 2019-11-06 This book analyses determinants and the evolution of Poland's foreign and security policy in the changing international order By studying historical geopolitical and domestic factors the author offers a better understanding of Poland's national interests and sheds new light on its foreign relations with the USA Russia and the European Union Furthermore the author also discusses Poland's cooperation within international organisations such as NATO and the EU

**Democracy in Poland** Anna Gwiazda, 2015-07-24 This book assesses the quality of democracy in Poland from the collapse of communism in 1989 up to the 2011 parliamentary election It presents an in depth empirically grounded study comparing two decades of democratic politics Drawing on democratic theory and comparative politics the book puts forward an evaluation of democracy based on four dimensions representation participation competition and accountability The book is an important contribution to debates on the performance of the new democracies in Central and Eastern Europe where some scholars argue that there is a democratic crisis that after a period of democratic progress most of these countries are experiencing democratic fatigue and that their democratic performance is poor However the Polish case shows that democracy is not in crisis in fact the quality of democracy in Poland has improved The book shows that democratic quality stems from good democratic institutions Moreover the Polish case shows useful lessons that can be learnt by democratic reformers in countries that are undergoing the transition to democracy or are aiming to consolidate their democratic systems It concludes that effective accountability good representation and stable competition are vital **Free Poland**, 1914

*Informal power in Hungary and Poland* Edit Zgut-Przybylska, 2026-03-31 This book is about the nature of informal governmental power in Hungary and Poland It highlights the key differences and similarities between the Orbán regime and the Kaczyński regime to show how they make societies dependent on the ruling elite The monograph explains how the coercive practices of these governments could avoid scrutiny of the European Union EU and unpacks the underlying reasons for the ineffectiveness of the EU in the context of the changing geopolitical environment and the war in Ukraine [Poland's Problems and Progress](#) graf Aleksander Józef Skrzyński, Aleksander Skrzyński, 1925 [America and the New Poland](#) Harold Henry Fisher, Sidney Brooks, 1928 **Economic Life of Poland** Comité des publications encyclopediques sur la Pologne, Fribourg, 1922 **Poland**, 1926 **The Democratic Heritage of Poland** Manfred Kridl, Józef Wittlin, Władysław Roman Malinowski, Władysław Malinowski, 1944 [Polish Encyclopædia: Economic life of Poland](#), 1922 **The New Poland** Charles O.
