Democratic Commitments Legislatures :

Democratic Commitments Lisa L. Martin, 2000-04-17 From the refusal of the U S Congress to approve fast track trade authority and certain foreign aid packages to the obstacles placed by Western European parliaments in the path of economic integration legislatures often interfere with national leaders efforts to reach and implement predictable international agreements This seems to give an advantage to dictators who can bluff with confidence and make decisions without consultation and many assume that even democratic governments would do better to minimize political dissent and speak foreign policy from a single mouth In this thoughtful empirically grounded challenge to the assumption that messy domestic politics undermine democracies ability to conduct international relations Lisa Martin argues that legislatures and particularly the apparently problematic openness of their proceedings actually serve foreign policy well by giving credibility to the international commitments that are made Examining the American cases of economic sanctions the use of executive agreements versus treaties and food assistance in addition to the establishment of the European Union Martin concludes that if institutionalized even rancorous domestic conversations between executives and legislatures augment rather than impede states international dealings Such interactions strengthen and legitimize states bargaining positions and international commitments increasing their capacity to realize international cooperation By expanding our comprehension of how domestic politics affect international dialogue this work is a major advance in the field of international relations and critical reading for those who study or forge foreign policy

The Europeanisation of Parliamentary Democracy Katrin Auel, Arthur Benz, 2006-05-04 This groundbreaking new study shows how the process of creating an ever closer European Union affects not only the policy making but also the politics and polity of the Member States Empirical studies on the domestic impact of Europe identified different forms of Europeanization due to alternative mechanisms of internalising the new norms and rules Although many studies have since focused on the question of how to what degree in what direction at what pace and at what point of time Europe matters the Europeanization of one particular structural determinant of the Member States namely the system of parliamentary democracy is still under researched This is all the more astonishing as democracy in the EU depends to a large extent on the democratic legitimacy of procedures at the national level This volume addresses the key issue of the Europeanisation of parliamentary systems and thus contributes to the ongoing debate on the parliamentary dimension of the European Union It brings together theoretical concepts as well as cross national empirical research on the Europeanization of the member states parliamentary systems focussing on different elements such as structures procedures and decision making processes as well as on the question how parliamentarians as actors react to these changes and actively shape this Europeanization This book was previously published as a special issue of *The Journal of Legislative Studies*

Just Politics C. William Walldorf, Jr., 2011-08-15 Many foreign policy analysts assume that elite policymakers in liberal democracies consistently ignore humanitarian norms when these norms interfere with commercial and strategic interests Today s

endorsement by Western governments of repressive regimes in countries from Kazakhstan to Pakistan and Saudi Arabia in the name of fighting terror only reinforces this opinion In Just Politics C William Walldorf Jr challenges this conventional wisdom arguing that human rights concerns have often led democratic great powers to sever vital strategic partnerships even when it has not been in their interest to do so Walldorf sets out his case in detailed studies of British alliance relationships with the Ottoman Empire and Portugal in the nineteenth century and of U S partnerships with numerous countries ranging from South Africa Turkey Greece and El Salvador to Nicaragua Chile and Argentina during the Cold War He finds that illiberal behavior by partner states varying degrees of pressure by nonstate actors and legislative activism account for the decisions by democracies to terminate strategic partnerships for human rights reasons To demonstrate the central influence of humanitarian considerations and domestic politics in the most vital of strategic moments of great power foreign policy Walldorf argues that Western governments can and must integrate human rights into their foreign policies Failure to take humanitarian concerns into account he contends will only damage their long term strategic objectives
