## **Democratic Myth:**

The Myth of American Democracy Trenton Fervor, 2013-04-10 In his current work Trenton Fervor author of *The Last Individual The Ascendancy of the Sociomaniacal Mindset* delivers a critical exposition of democracy and its defects *The Myth of American Democracy* is an unapologetic critique of the American political system and an attempt to dismantle the mystique perpetuated to sanctify and sanction it Fervor entreats the reader to reexamine the notion of democracy and its attendant processes absent the sophistic demagoguery and to more closely consider the actual nature of the institution and the establishment behemoth which inhabits and advances it The reader is encouraged to confront the myth and deception which pervade the contemporary conception of democracy and to accept the reality that the democratic emperor is naked Democracy today is in truth fundamentally absurd its premise is that an ideologically coherent consistent and efficient social policy program can be constructed by formulating each aspect of the overall program through a process of majoritarian amalgamation of contradictory incongruent and confrontational views *The Myth of American Democracy* is an important rebuke of conventional democratic orthodoxy which will challenge readers to reevaluate their sympathies for the system This book is recommended reading for everyone who has wrestled with the troubling suspicion that there is something inherently dubious and defective about the democratic system

**Myths and Politics in Western Societies** John Girling, 2024-11-01 In an intriguing and provocative book an important thesis An important addition to libraries serving both academic and general readers Choice

*Political Myths and Economic Realities* Francis Delaisi, 1927

*The Condition of Democracy* Jürgen Mackert, Hannah Wolf, Bryan S. Turner, 2021-07-12 Recent years have seen contestations of democracy all around the globe Democracy is challenged as a political as well as a normative term and as a form of governance Against the background of neoliberal transformation populist mobilization and xenophobic exclusion but also of radical and emancipatory democratic projects this collection offers a variety of critical and challenging perspectives on the condition of democracy in the 21st century The volumes provide theoretical and empirical enquiries into the meaning and practice of liberal democracy the erosion of democratic institutions and the consequences for citizenship and everyday lives With a pronounced focus on national and transnational politics and processes as well as postcolonial and settler colonial contexts individual contributions scrutinize the role of democratic societies ideals and ideologies of liberal democracy within global power geometries By employing the multiple meanings of *The Condition of Democracy* the collection addresses the preconditions of democratic rule the state this form of governance is in and the changing ways in which citizens can still act as the sovereign in liberal democratic societies The books offer both challenging theoretical perspectives and rigorous empirical findings of how to conceive of democracy in our times which will appeal to academics and students in social and political science economics and international relations amongst other fields The focus on developments in the Middle East and North Africa will furthermore be of great usefulness to academics and the wider public interested in the repercussions of western democracy promotion as

well as in contemporary struggles for democratization from below During the last 50 years liberal democracies have been exposed to a fundamental reorganization of their politico economic structure that transformed them through the impact of neo liberal economic doctrines focused on low taxation free markets and out sourcing that have little regard in reality for democratic institutions or liberal values The failures of the neoliberal remedy for capitalism are now dramatically obvious through the banking crisis of 2008 2011 the increase in income inequality the social and psychological damage caused by the austerity packages across Europe and widespread dependence on experts whose influence over government policies typically goes without public scrutiny While this has only accelerated the destruction of the social fabric in modern Western societies the dramatic redistribution of wealth and an open politics for the rich have also revealed the long time well covered alliance of the global oligarchy with the Far Right that has the effect of undermining democracy The contributions to this volume discuss a wide variety of processes of transformation the social consequences dedemocratization and illiberalization of once liberal democracies through the destructive impact of neoliberal strategies These strongly politico economic contributions are complemented with general sociological analyses of a number of cultural aspects often neglected in analyses of democracy

*Death and Philosophy* J.E Malpas, Robert C. Solomon, 2002-06-01 *Death and Philosophy* considers these questions with different perspectives varying from the existentialist deriving from Camus Heidegger or Sartre to the English speaking analytic tradition of Bernard Williams or Thomas Nagel to non wester approaches such as are exemplified in the Tibetan Book of the Dead and in Daoist thought to perspectives influenced by Lucretious Epicurus and Nietzsche *Death and Philosophy* will be of great interest to philosophers or those studying religion and theology but its clarity and scope ensures it will be accessible to anyone who has considered what it means to be mortal

*Radical Democracy and Populism* Leonardo Fiorese, 2022-03-02 This book offers an extensive comparative analysis of populism and radical democratic theories tracing the line dividing the respective conceptions of people and popular sovereignty Whereas populism is often said to intertwine with democracy in some way the contention of this book is that it significantly departs from democratic theory and practice and belongs to a distinct conceptual space It cannot be made to overlap for instance with illiberal democracy the democratic myth a crude electoral majoritarianism nor can it amount to hiding undemocratic policies into properly democratic justifications These positions frequent as they are in the literature are contested on the grounds of the dividing line identified which starts unfolding at the level of the conception of the people i e of the sovereign presupposed by populists and democrats This book is of great interest to scholars involved in the study of democratic theory contemporary challenges to democracy and the recent upsurge of populist discourse as it helps better understand populism as a political phenomenon and more adequately defines it as a self standing concept in political theory

**Soul of a Democrat** Thomas B. Reston, 2018-05-29 A brief history of the Democratic Party and the national ideals it has abandoned over time thus losing its working class base and its soul

*Western Democracy and the AKP* Mehmet Celil Çelebi, 2022-12-23 Upturning the typical

view of Turkey's democratic trajectory as a product of authoritarian assault or unfortunate circumstances this book argues that the AKP first elected in 2002 has consistently advanced a narrative of democracy as the work of an elite working for the National Will Beginning with an analysis of the historical processes that led to the AKP's rise at the beginning of the 21st century the book then focuses on the AKP since 2002 Though Turkey's democratic transition was originally characterised by Western co-operation the author outlines the gradual deterioration of these relations since the 2010s as well as the decline of political rights freedom of expression and the rule of law However bringing in theoretical perspectives of democracy it is argued that the AKP has adopted an alternative definition based on the National Will throughout its rule resistant to the Western essentialist view As such the AKP's story highlights that the root of this crisis lies within democracy itself The book will appeal to historians and analysts of Turkish politics as well as to political scientists interested in theories of democracy Moreover for those interested in the global contemporary crisis of democracy the book provides an important case study

**Soul of a Democrat** Thomas B. Reston, 2024-07-02

In 2016 the Democratic Party lost control of every branch of government Countless explanations and excuses have been offered but in this heartfelt evocative book longtime Democratic activist Thomas B Reston illuminates the true cause the Party has lost its soul In Reston's view the Party has abandoned any unifying idealistic message Instead of crafting policies and platforms that appeal to the nation as a whole Democrats target specific blocs of voters and change their talking points accordingly This divisive approach will not end well for Democrats or the country as a whole If they want to remain competitive on the national stage Reston argues Democrats need a coherent blunt set of American ideals The good news is they already have one In *Soul of a Democrat* Reston takes us on a journey through the history of the Party with thumbnail portraits of its most important figures illuminating the core ideals and principles they fought for Thomas Jefferson founded the Democratic Party to lift up the people as a whole by empowering each individual citizen Andrew Jackson committed the party to always fight for outsiders Woodrow Wilson insisted on a progressive respect for ideas William Jennings Bryan introduced the altruistic Social Gospel Franklin D Roosevelt promised economic security for all Lyndon B Johnson championed the ongoing struggle for civil rights These Democratic statesmen knew that a successful party needs strong idealistic roots an understandable message and an emphatic focus on the purpose of what it is doing instead of on the mechanics Reston's concise and elegant book shows modern Democrats how to learn from their own past and once again become The Party of The People

**Post-Racial Constitutionalism and the Roberts Court** Cedric Merlin Powell, 2022-11-03 This book examines and critiques how the United States Supreme Court under the leadership of Chief Justice John Roberts perpetuates structural inequality

**Contesting Democracy** Byron E. Shafer, Anthony J. Badger, 2001 Leading scholars provide a comprehensive history of two centuries of U S politics Contributions from a who's who of political historians *The Myth of Democratic Failure*

Donald A. Wittman, 1995 In *The Myth of Democratic Failure* Donald A Wittman refutes one of the cornerstone beliefs of economics and political science that economic markets are more efficient than the processes and institutions of democratic government

**The Myth of Democracy** Tage Lindbom, 1996 Western intellectuals and politicians are writing and speaking about the triumphs and salvific powers of democracy But according to Swedish historian and philosopher Tage Lindbom there is a widening gap between democratist rhetoric and concrete reality Democratism is surging in the midst of deepening social and political problems including falling standards of moral conduct declining education political corruption the destruction of the family and crime In this provocative and highly engaging volume Lindbom analyzes some of the most important elements of the protracted process that finally produced the modern myth of self governing man Turning the tables on our progressive age Lindbom asks readers to consider the possibility that democracy is quintessentially the manifestation of spiritual debacle the attempt to replace the true sovereignty of God with the kingdom of man

**Towards the Peace of Nations** Hugh Dalton Baron Dalton, 1928

Myth and the American Experience Nicholas Cords, Patrick Gerster, 1991 Myths have a dual nature They are on the one hand stories works of fancy and falsehood Yet in the stories a society tells about itself there are clearly psychological truths every bit as revealing as the facts In this very duality myths often reflect the nuances and conflicts of a living changing society in ways that accepted academic history cannot Here students of American society will discover a fascinating counterpart to the history portrayed in standard texts More than ever Myth and the American experience proves that through myths we can better understand as well as express our collective desires dreams and values

## **Democratic Myth Introduction**

In today's digital age, the availability of Democratic Myth books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Democratic Myth books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Democratic Myth books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Democratic Myth versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Democratic Myth books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Democratic Myth books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Democratic Myth books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare,

which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Democratic Myth books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Democratic Myth books and manuals for download and embark on your journey of knowledge?
