## **Demography And Nutrition:**

**Demography and Nutrition** Susan Scott, Christopher J. Duncan, 2008-04-15 This exciting and important book covers the impact on demography of the nutrition of populations offering the view that the change from the hunter gatherer to an agricultural life style had a major impact on human demography which still has repercussions today Demography and Nutrition takes an interdisciplinary approach involving time series analyses mathematical modelling aggregative analysis and family reconstitution as well as analysis of data series from Third World countries in the 20th Century Contents include details and analysis of mortality oscillations food supplies famines fertility and pregnancy infancy and infant mortality ageing infectious diseases and population dynamics The authors both well known internationally for their work in these areas have a great deal of experience of population data gathering and analysis Within the book they develop the thesis that malnutrition from which the bulk of the population suffered was the major factor that regulated demography in historical times its controlling effect operated via the mother before during and after pregnancy Demography and Nutrition contains a vast wealth of fascinating and vital information and as such is essential reading for a wide range of health professionals including nutritionists dietitians public health and community workers Historians social scientists geographers and all those involved in work on demography will find this book to be of great use and interest Libraries in all university departments medical schools and research establishments should have copies of this landmark publication available on their shelves Population and Nutrition Massimo Livi Bacci, 1990 In this essay the mechanisms of biological social and cultural nature linking subsistence mortality and population are discussed

**Globalization, Health, and the Environment** Greg Guest, 2005-09-21 Leading health scholars reveal the impact of globalization on human health as it is mediated through environmental change They explore the destabilizing impact of globalization on the planet's ecology and on the health of the human populations that are dependent on the delicate global bionetwork Their timely case studies describe the cultural adaptations of indigenous populations to their changing environments evaluating their technological and global political economic processes The authors analyze local and global public health strategies examine the association between globalization and demographics and offer creative solutions for future health policies This book will be a valuable resource for professionals in international health medical anthropology sociology and geography environmental studies and globalization studies **The Biological and Social Determinants of the Demographic Transition** Héctor Correa, Mohamed Ali El Torkey, 1982 *Standard Demographic, Nutrition and Epidemiologic Terminology* World Bank. Population, Health, and Nutrition Department, 1983
