Bone Hunter:

The Bone Hunter Tom Holland, 2011-05-19 An heir of John Buchan and Rider Haggard Holland is a storyteller dealing in mysteries and marvels he holds the reader's attention in an iron grip DAILY TELEGRAPH 1878 The golden days of dinosaur discoveries In the still Wild West fossils of a monstrous size are being uncovered by America's two greatest bone hunters Professors Marsh and Cope Caught in the bitterest of feuds their rival gangs steal or smash up each other's collections of bones and clash murderously in the badlands of the West Back in New York the two professors are sniffing out tantalising rumours of the ultimate find Also lured by these hints are enigmatic English scientist Captain Dawkins and Miss Lilian Prescott a naive but wilful heiress Drawn into a web of corruption and murder they are forced on a desperate hunt for a box of mysterious fossils a quest filled with danger adventure and extraordinary discoveries **Bone Hunter** Sarah

Andrews, 2000-09-15 Lady geologist Em Hansen investigates the murder of a paleontologist during a conference on dinosaur fossils in Salt Lake City The probe leads to romance with a Mormon police officer **Bone Hunter** Thea

Atkinson, 2024-08-12 A bargain bound in blood might take a pound of flesh or worse A dark fae master is calling in all his favors And Isabella has no choice but to retrieve a stolen relic for him or lose the protection he's put on her apartment The trouble is helping him means getting involved with vampires Lots of vampires And she's never been good at making the right choice In for a penny but stuck paying a pound she finds out there really is no choice at all the bargain is already bound in blood The question is whose blood is it You will love this second installment in the fresh new urban fantasy heist series because it is action packed and romantic all at the same time Get your copy now **The Night Country** Loren

Eiseley, 2016-11-15 One of America's most beloved naturalists reflects on the fallibility of science the mystery of evolution and the surprise of life in this fascinating essay collection Time Weaving together memoir philosophical reflection and his always keen observations of the natural world Loren Eiseley's essays in *The Night Country* explore those moments often dark and unexpected when chance encounters disturb our ordinary understandings of the universe The naturalist here seeks neither salvation in facts nor solace in wild places discovering an old bone or a nest of wasps or remembering the haunted spaces of his lonely Nebraska childhood Eiseley recognizes what he calls the ghostliness of myself his own mortality and the paradoxes of the evolution of consciousness *Trials of Tomorrow* Alexter Albury, 2014-05-15 Man pushed the boundaries of science and technology too far This march to progress trampled and transformed Earth into an unrecognizable world This new world caters not to the humans who once conquered it but to the strange and powerful beings that spring from it This complete shift against the men of Earth causes them to seek refuge in the stars and into the very same sciences that set their perils in motion And as humans push beyond their mortal limitations to seize a new era of dominion they are being watched and manipulated by powers that extend far beyond the confines of Earth Man's relationship with these foreign beings drags them into a perilous time of secrecy violence and the abuse of knowledge *Trials of Tomorrow* shares the tales of the men

women and creatures spawned from this era of unrestrained science and how their strange powers shape the future of Earth and the galaxy
