New Horizons in pro-p Groups Marcus du Sautoy, Dan Segal, Aner Shalev, 2000-05-25 A pro p group is the inverse limit of some system of finite p groups that is of groups of prime power order where the prime conventionally denoted p is fixed Thus from one point of view to study a pro p group is the same as studying an infinite family of finite groups but a pro p group is also a compact topological group and the compactness works its usual magic to bring infinite problems down to manageable proportions The p adic integers appeared about a century ago but the systematic study of pro p groups in general is a fairly recent development Although much has been discovered many avenues remain to be explored the purpose of this book is to present a coherent account of the considerable achievements of the last several years and to point the way forward Thus our aim is both to stimulate research and to provide the comprehensive background on which that research must be based The chapters cover a wide range In order to ensure the most authoritative account we have arranged for each chapter to be written by a leading contributor or contributors to the topic in question Pro p groups appear in several different though sometimes overlapping contexts *Elements of Mining* George Joseph Young, 1916 Small Groups John M. Levine, Richard L. Moreland, 2008-02-19 Research on small groups is highly diverse because investigators who study such groups vary in their disciplinary identifications theoretical interests and methodological preferences The goal of this volume is to capture that diversity and thereby convey the breadth and excitement of small group research by acquainting students with work on five fundamental aspects of groups The volume also includes an introductory chapter by the editors which provides an overview of the history of and current state of the art in the field Together with introductions to each section discussion questions and suggestions for further reading make the volume ideal reading for senior undergraduate and graduate students interested in group dynamics **International Survey of Surgery**, 1924 Journal of the Royal Statistical Society Royal Statistical Society (Great Britain), 1910 Published papers whose appeal lies in their subject matter rather than their technical statistical contents Medical social educational legal demographic and governmental issues are of particular concern *Bulletin* Ohio Agricultural Experiment Station, 1895 **Monthly Review of Agricultural and Business Conditions in the Ninth Federal Reserve District**, 1927 *Qualitative Chemical Analysis* Frederick Mollwo Perkin, 1901 **Papers from the Department of Marine Biology of the Carnegie Institution of Washington**, 1915 *Bulletin*, 1928 *Dominion Experimental Farms in ...* Canada.
