Editing Susan L. Greenberg, 2015 The work of editing is by and large something that happens behind the scenes noticed only when it is done badly or not done at all There is not much information about what editors do The result is that editing is not often talked about in its own right not even by the people who do it This collection of interviews attempts to fill some of the gaps The author a former editor herself interviews practitioners at the top of their game from newspapers magazines broadcast news book publishing scholarly editing academic publishing and digital curation The interviewees think out loud about creativity and human judgment what they have in common and what makes them different how editing skills and culture can be shared why editing continues to fascinate and why any of this might matter Speaking of Journalism

Editing is an invisible art in which the very best work goes undetected. Editors strive to create books that are enlightening, seamless, and pleasurable to read, all while giving credit to the author. This makes it all the more difficult to truly understand the range of roles they inhabit while shepherding a project from concept to publication. *What Editors Do* gathers essays from twenty-seven leading figures in book publishing about their work. Representing both large houses and small and encompassing trade, textbook, academic, and children's publishing, the contributors make the case for why editing remains a vital function to writers and readers everywhere. Ironically, for an industry built on words, there has been a scarcity of written guidance on how to approach the work of editing. Serving as a compendium of professional advice and a portrait of what goes on behind the scenes, this book sheds light on how editors acquire books, what constitutes a strong author-editor relationship, and the editor's vital role at each stage of the publishing process, a role that extends far beyond marking up the author's text. This collection treats editing as both art and craft and also as a career. It explores how editors balance passion against the economic realities of publishing and shows why, in the face of a rapidly changing publishing landscape, editors are more important than ever. Authoritative, entertaining, and informative.

Women and the Periodical Press in China's Long Twentieth

Century Michel Hockx,Joan Judge,Barbara Mittler,2018-05-24 In this major new collection an international team of scholars examine the relationship between the Chinese women s periodical press and global modernity in the late nineteenth and twentieth centuries The essays in this richly illustrated volume probe the ramifications for women of two monumental developments in this period the intensification of China s encounters with foreign powers and a media transformation comparable in its impact to the current internet age The book offers a distinctive methodology for studying the periodical press which is supported by the development of a bilingual database of early Chinese periodicals Throughout the study essays on China are punctuated by transdisciplinary reflections from scholars working on periodicals outside of the Chinese context encouraging readers to rethink common stereotypes about lived womanhood in modern China and to reconsider the nature of Chinese modernity in a global context
