## Of English Furniture:

A History of English Furniture: The age of walnut Percy Macquoid, 1905 In the arrangement of this work it will be found that the subject has been divided into four periods The first dating from 1500 to 1660 comprising furniture that can be attributed to the Renaissance and its evolution from the Gothic may be termed The age of oak The second from 1660 to 1720 where the change is varied by the Restoration and Dutch influence followed by a distinctly assertive English spirit may be called The age of walnut The third period where the introduction from France of fresh ideas in design clearly marked another change lasting from 1720 to 1770 which we call The age of mahogany and the fourth from 1770 to 1820 inspired by an affectation for all things classical combined with a curiously unbalanced taste can best be described as The composite age
