Nuclear Age Roman Rosenbaum,Yasuko Claremont,2023-05-12 This book explores the contemporary legacy of Hiroshima
and Nagasaki following the passage of three quarters of a century and the role of art and activism in maintaining a critical
perspective on the dangers of the nuclear age It closely interrogates the political and cultural shifts that have accompanied
the transition to a nuclearised world Beginning with the contemporary socio political and cultural interpretations of the
impact and legacy of the destruction of Hiroshima and Nagasaki the chapters examine the challenges posed by committed
opponents in the cultural and activist fields to the ongoing development of nuclear weapons and the expanding industrial
uses of nuclear power It explores how the aphorism that all art is political is borne out in the close relation between art and
activism This multi disciplinary approach to the socio political and cultural exploration of nuclear energy in relation to
Hiroshima Nagasaki via the arts will be of interest to students and scholars of peace and conflict studies social political and
