

IDENTITY ACHIEVEMENT

Identity achievement is the successful establishment of a coherent and integrated sense of self, characterized by a clear understanding of one's values, goals, beliefs, and sense of identity.

OVERVIEW

Identity achievement refers to the stage of Erikson's psychosocial development, where individuals have successfully resolved the identity crisis and have established a firm sense of who they are. It involves a process of exploration and decision-making, where individuals actively seek out and make choices regarding their values, interests, career paths, and overall life direction.

EXAMPLES

- **Career Choice:** A man has a deep respect for teachers. Eventually, he decides to commit to a career in education to inspire future generations.
- **Religious Commitment:** After exploring various faiths and spiritual practices, a woman decides to convert to Buddhism, finding it aligns with her personal beliefs and aspirations.
