Introduction I compiled this Book of Knowledge Facts we should know about the U S because Knowledge become wisdom which can include information facts descriptions or skills acquired through experience or education It can refer to the theoretical or practical understanding of a subject It can be implicit as with practical skill or expertise or explicit as with the theoretical understanding of a subject and it can be more or less formal or systematic Topics included in this book
Conceptions of God The American Civil War Mount Rushmore Events of Note U S History The Fifty United States of America The Presidents here the jury s true judgment falls short of being knowledge Plato s third analysis is that true belief accompanied by a rational account is knowledge whereas true belief unaccompanied by a rational account is distinct from knowledge The only problem with this analysis revolves around the word account All interpretations of account are deemed inadequate These analyses prove to be an excellent example of the attacking the inadequate theories of knowledge but it does not prove an answer to what knowledge is Knowledge to me is researching and getting facts on a subject matter My answer to attaining knowledge is one of the greatest asset a human can acquire during their lifetime The internet was the tool that made it possible for me to acquire information on knowledge that made it possible for me to compile this Book of Knowledge Facts we should know about the U S for the reader enjoyment and get much needed education on the facts
