The Source Book William Francis Rocheleau, 1926 *Metamorphic Imagery in Ancient Chinese Art and Religion* Elizabeth Childs-Johnson, John S Major, 2023-05-30 Metamorphic Imagery in Ancient Chinese Art and Religion demonstrates that the concept of metamorphism was central to ancient Chinese religious belief and practices from at least the late Neolithic period through the Warring States Period of the Zhou dynasty Central to the authors argument is the ubiquitous motif in early Chinese figurative art the metamorphic power mask While the motif underwent stylistic variation over time its

formal properties remained stable underscoring the image's ongoing religious centrality. It symbolized the metamorphosis through the phenomenon of death of royal personages from living humans to deceased ancestors who required worship and sacrificial offerings. Treated with deference and respect, the royal ancestors lent support to their living descendants, ratifying and upholding their rule; neglected, they became dangerous, even malevolent. Employing a multidisciplinary approach that integrates archaeologically recovered objects with literary evidence from oracle bone and bronze inscriptions to canonical texts, all situated in the appropriate historical context, the study presents detailed analyses of form and style and of change over time, observing the importance of relationality and the dynamic between imagery, materials, and affects. This book is a significant publication in the field of early China studies, presenting an integrated conception of ancient art and religion that surpasses any other work now available.

Performing Disfiguration Akhila Vimal C., 2025-08-09 This book explores the processes of disfiguration in the classical and ritual healing performances of India, with a particular focus on the rich and diverse performance traditions of Kerala. It examines three modes of disfiguration: blood, madness, and laughter, to offer unique insights into how these elements shape the performative body. By drawing on Kerala's distinctive cultural and ritual contexts, this work provides a deep understanding of the region's embodied practices. Written from an interdisciplinary perspective, the book blends performance studies with detailed ethnographic descriptions to capture the nuances of pain and affect. It challenges and subverts normative notions of performance, offering a fresh lens through which to view these dynamic traditions. This book serves as an invaluable resource for scholars of dance performance studies and practitioners seeking to explore the interplay between region, ritual, and disfiguration in Indian performance forms.
