Weisberg, 2013-01-18 David Weisberg became fascinated by Assyriology as an undergraduate at Columbia University Already endowed with a strong background in Hebraica he soon came to know that he needed the deeper immersion of a graduate program and he enrolled at Yale to pursue it David s interests soon focused on the Chaldean Dynasty of Nebuchadnezzar and the Achaemenid Dynasty of Cyrus the Great Weisberg s thesis succeeded in illuminating the wider significance of some previously unpublished cuneiform texts from this period as well as earning him the doctorate The thesis appeared in the recently established Yale Near Eastern Researches 1967 under the somewhat daunting title Guild Structure and Political Allegiance in Early Achaemenid Mesopotamia and David s career was launched Weisberg s oeuvre as exemplified by the nearly three dozen essays conveniently assembled in this volume attest both to his prodigious industriousness and to the loss that the field of Assyriology has suffered in his untimely demise As is clear from the Table of Contents he continued to make major contributions to the study of the Neo Babylonian period especially regarding political and military history and the doings of ancient royals but he also offered seminal insights in other areas including Masoretic studies rabbinics social and economic life of the ancient Near East as well as the interface between modern culture and study of the ancient world Based on W W Hallo s Introduction **Books and Notes** Los Angeles County Public Library, 1926 *Late Antique and Early Christian Gems* Jeffrey Spier, 2007 Throughout the Middle Ages Roman gems and cameos were highly valued as intrinsically precious

objects or even as possessing magical properties During the Renaissance large collections of gems were formed by aristocratic collectors who sought inspiration from the classical images engraved on them and gems have been collected for similar reasons ever since With the exception of a few dedicated antiquaries however collectors and scholars over the last five hundred years or so have generally ignored late antique and early Christian gems This study presents more than 1000 gems from different collections more than 300 of them unpublished so far They are presented according to different genres themes material and place or time of production The catalogue is completed by about 1300 illustrations Publisher s description
