

Address To Young America

SJ Ball

Address To Young America:

Young America Edward L. Widmer, 2000 This fascinating study examines the meteoric career of a vigorous intellectual movement rising out of the Age of Jackson As Americans argued over their destiny in the decades preceding the Civil War an outspoken new generation of ultra democratic writers entered the fray staking out positions on politics literature art and any other territory they could annex They called themselves Young America and they proclaimed a Manifest Destiny to push back frontiers in every category of achievement Their swagger found a natural home in New York City already bursting at the seams and ready to take on the world Young America's mouthpiece was the Democratic Review a highly influential magazine funded by the Democratic Party and edited by the brash and charismatic John O Sullivan The Review offered a fresh voice in political journalism and sponsored young writers like Hawthorne and Whitman early in their careers Melville too was influenced by Young America and provided a running commentary on its many excesses Despite brilliant promise the movement fell apart in the 1850s leaving its original leaders troubled over the darker destiny they had ushered in Their ambitious generation had failed to rewrite history as promised Instead their perpetual agitation helped set the stage for the Civil War Young America The Flowering of Democracy in New York City is without question the most complete examination of this captivating and original movement It also provides the first published biography of its leader John O Sullivan one of America's great rhetoricians Edward L Widmer enriches his unique volume by offering a new theory of Manifest Destiny as part of a broader movement of intellectual expansion in nineteenth century America

The Young America Movement and the Transformation of the Democratic Party, 1828-1861 Yonatan Eyal, 2007-08-20 The phrase Young America connoted territorial and commercial expansion in the antebellum United States During the years leading up to the Civil War it permeated various parts of the Democratic party producing new perspectives in the realms of economics foreign policy and constitutionalism Led by figures such as Senator Stephen A Douglas of Illinois and editor John L O Sullivan of New York Young America Democrats gained power during the late 1840s and early 1850s They challenged a variety of orthodox Jacksonian assumptions influencing both the nation's foreign policy and its domestic politics This 2007 book offers an exclusively political history of Young America's impact on the Democratic Party complementing existing studies of the literary and cultural dimensions of this group This close look at the Young America Democracy sheds light on the political realignments of the 1850s and the coming of the Civil War in addition to showcasing the origins of America's longest existing political party
