Adjustment Policies And Development Strategies In The Arab World:

Adjustment Policies and Development Strategies in the Arab World Mr.Saíd El-Naggar,1987-09-15 This Selected Issues paper discusses the assessment of economic activity in Togo in absence of quarterly GDP series Togo collects about 40 macroeconomic indicators monthly that span a wide range of sectors of the economy The selection of the variables for the economic activity index is conducted by finding the combination of variables The indicators are aggregated into an index using a methodology used by the Conference Board Then an economic activity index is constructed that effectively replicates the historical growth rates of real GDP in Togo The selected index minimizes the deviations between the growth rates of the indicator and actual real GDP growth over 2002 13

Economic Development of the Arab Countries Mr.Saíd El-Naggar,1993-05-15 This volume edited by Said El Naggar is the fifth in a series of seminars dealing with economic issues of particular importance to the Arab countries Held in Manama Bahrain in February 1993 it covered topics pertaining to economic development of the Arab countries in the nineties The seven papers that were presented comprised economic reform in the Arab countries including particularly structural issues investment policies and capital flows inter Arab labor movements environment and development development of human resources and European economic integration An overview of the topics is presented by the seminar moderator Said El Naggar

Finance & Development, March 1988 International Monetary Fund. External Relations Dept.,1988-03-01 This paper examines the policy implications of structural changes in financial markets Domestic financial markets have become less segmented and the major financial centers more integrated At the same time the structural changes in financial markets have improved efficiency by lowering intermediation costs increasing the ability to hedge financial risks associated with currency interest rate and price volatility and opening up access to new sources of savings The widespread application of computer and telecommunications technology to financial markets has permitted markets to process a significantly larger volume of transactions
