Shipping Committee,1912 *Citizenship in a Fragile World* Bernard P. Dauenhauer,1996-07-11 Traditional conceptions of citizenship have dealt almost exclusively with political life within one state But the internationalization of so much economic cultural and political life today presents new opportunities and problems including the potential to extinguish human life Taking these new features as a point of departure Dauenhauer exposes the flaws in standard communitarian and liberal democratic theory focusing on the work of Charles Taylor John Rawls and Jürgen Habermas He articulates a concept of complex citizenship that recognizes citizens responsibilities beyond borders and shows its fruitfulness for educating children and dealing with foreign states and their peoples Federal Reporter ,1925 Citizenship, Borders, and Human Needs Rogers M. Smith,2011-01-19 From anxiety about Muslim immigrants in Western Europe to concerns about undocumented workers and cross border security threats in the United States disputes over immigration have proliferated and intensified in recent years These debates are among the most contentious facing constitutional democracies and they show little sign of fading away Edited and with an introduction by political scientist Rogers M Smith *Citizenship Borders and Human Needs* brings together essays by leading international scholars from a wide range of disciplines to explore the economic cultural political and normative aspects of comparative immigration policies In the first section contributors go beyond familiar explanations of immigration s economic effects to explore whose needs are truly helped and harmed by current migration patterns The concerns of receiving countries include but are not limited to their economic interests and several essays weigh different models of managing cultural identity and conflict in democracies with large immigrant populations Other essays consider the implications of immigration for politics and citizenship In many nations large scale immigration challenges existing political institutions which must struggle to foster political inclusion and accommodate changing ways of belonging to the polity The volume concludes with contrasting reflections on the normative standards that should guide immigration policies in modern constitutional democracies *Citizenship Borders and Human Needs* develops connections between thoughtful scholarship and public policy thereby advancing public debate on these complex and divisive issues Though most attention in the collection is devoted to the dilemmas facing immigrant receiving countries in the West the volume also explores policies and outcomes in immigrant sending countries as well as the situation of developing nations such as India that are net receivers of migrants **The Digest of South African Case Law Containing the Reported Decisions of the Superior Courts** Thomas Graeme Duncan,1927 The Federal Reporter ,1925 Parliamentary Papers Great Britain. Littlejohn,1997-03-20 Moral Conflict the subject of this book is passionate and difficult to resolve Responses that are normally effective such as explaining persuading and compromising can make matters worse and drive people further apart in such conflicts Moral conflicts occur when incommensurate social realities come to clash Disputes about abortion religion in politics and education legal rights for homosexuals and environmental politics are issues in which well intentioned parties have created polarized and diverse

patterns of communication The most virtuous actions of each side not only fail but widen the schism Such conflicts require us to find forms of communication that go beyond our normal ways of dealing with disagreement In an original synthesis of communication theory and their own research W Barnett Pearce and Stephen W Littlejohn describe a dialectical tension between the expression and suppression of conflict that can be transcended in ways that lead to personal growth and productive patterns of social action In *Moral Conflict* several projects are described as practical examples of these new ways of working through difficult struggles *The Social Studies Professional*, 2002 **The South African Law Reports.**
