Admitting The Holocaust Collected Essays:

Admitting the Holocaust Lawrence L. Langer, 1996-06-20 In the face of the Holocaust writes Lawrence L Langer our age clings to the stable relics of faded eras as if ideas like natural innocence innate dignity the inviolable spirit and the triumph of art over reality were immured in some kind of immortal shrine immune to the ravages of history and time But these ideas have been ravaged and in *Admitting the Holocaust* Langer presents a series of essays that represent his effort over nearly a decade to wrestle with this rupture in human values and to see the Holocaust as it really was His vision is necessarily dark but he does not see the Holocaust as a warrant for futility or as a witness to the death of hope It is a summons to reconsider our values and rethink what it means to be a human being These penetrating and often gripping essays cover a wide range of issues from the Holocaust's relation to time and memory to its portrayal in literature to its use and abuse by culture to its role in reshaping our sense of history's legacy In many Langer examines the ways in which accounts of the Holocaust in history literature film and theology have extended and sometimes limited our insight into an event that is often said to defy understanding itself He singles out Cynthia Ozick as one of the few American writers who can meet the challenge of imagining mass murder without flinching and who can distinguish between myth and truth On the other hand he finds Bernard Malamud's literary treatment of the Holocaust never entirely successful it seems to have been a threat to Malamud's vision of man's basic dignity and he argues that William Styron's portrayal of the commandant of Auschwitz in *Sophie's Choice* pushed Nazi violence to the periphery of the novel where it disturbed neither the author nor his readers He is especially acute in his discussion of the language used to describe the Holocaust arguing that much of it is used to console rather than to confront He notes that when we speak of the survivor instead of the victim of martyrdom instead of murder regard being gassed as dying with dignity or evoke the redemptive rather than grievous power of memory we draw on an arsenal of words that tends to build verbal fences between what we are mentally willing or able to face and the harrowing reality of the camps and ghettos A respected Holocaust scholar and author of *Holocaust Testimonies The Ruins of Memory* winner of the 1991 National Book Critics Circle Award for criticism Langer offers a view of this catastrophe that is candid and disturbing and yet hopeful in its belief that the testimony of witnesses in diaries journals memoirs and on videotape and the unflinching imagination of literary artists can still offer us access to one of the darkest episodes in the twentieth century

Studies in Contemporary Jewry Jonathan Frankel, 1998-02-05 Was the Holocaust a natural product of a long German history of Anti-Semitism Or were the Nazi policies simply a wild mutation of history not necessarily connected to the past Or does the truth lie somewhere in between This latest volume in the acclaimed *Studies in Contemporary Jewry* series edited by internationally known scholars at the Hebrew University in Jerusalem presents essays on the origins of the Holocaust The works in this volume are diverse in scope and opinion ranging from general philosophical discourses to detailed analyses of specific events and often reflecting the divergent ideologies and methods of the

contributors But each adds to the whole and the result is a fascinating panorama that is sure to be indispensable to all students and scholars of the subject

The Holocaust's Jewish Calendars Alan Rosen, 2019-02-28 The most comprehensive to date treatment of these precious artifacts of the Holocaust s Jewish efforts to maintain religious observations and identity Choice Calendars map time shaping and delineating our experience of it While the challenges to tracking Jewish conceptions of time during the Holocaust were substantial Alan Rosen reveals that many took great risks to mark time within that vast upheaval Rosen inventories and organizes Jewish calendars according to the wartime settings in which they were produced from Jewish communities to ghettos and concentration camps The calendars he considers reorient views of Jewish circumstances during the war and show how Jews were committed to fashioning traditional guides to daily life even in the most extreme conditions In a separate chapter moreover he elucidates how Holocaust era diaries sometimes served as surrogate Jewish calendars All in all Rosen presents a revised idea of time continuity the sacred and the mundane the ordinary and the extraordinary even when death and destruction were the order of the day Rosen s focus on the Jewish calendar the ultimate symbol of continuity as weekday follows weekday and Sabbath follows Sabbath sheds new light on how Jews maintained connections to their way of conceiving time even within the cauldron of the Holocaust Rosen demonstrates the relationship between time and meaning between meaning and holiness between holy days and the divine presence all of which came under assault in the Nazis effort to kill Jewish souls before destroying Jewish bodies David Patterson author of *Along the Edge of Annihilation The Collapse and Recovery of Life in the Holocaust Diary*

The Politics of Acknowledgement Joanna R. Quinn, 2011-01-01 Human rights violations leave deep scars on people societies and nations Since the early 1990s international rights groups have argued that resolving the violence of the past through instruments of transitional justice such as truth commissions is a necessary condition for a peaceful future But how can nations ensure that these tribunals are the best path to reconciliation *The Politics of Acknowledgement* develops a theoretical framework of acknowledgement with which to evaluate truth commissions Rather than applying this framework to successful tribunals Joanna Quinn uses it to analyze the difficulties encountered and the ultimate failure of two poorly understood truth commissions in Uganda and Haiti The failure of these commissions reveals that if reconciliation is to be achieved acknowledgement of past violence and harm by both victims and perpetrators must come before goals such as forgiveness social trust civic engagement and social cohesion

The Violent Gift David Janzen, 2012-10-10 Traces the narrative of the exilic author of the Deuteronomistic History providing an explanation for the trauma that the Judean community in Babylon suffered

Breaking Crystal Efraim Sicher, 1998 The first multidisciplinary study of its kind *Breaking Crystal* examines how members of the generation after the Holocaust in Israel and the United States confront through their own imaginations a traumatic event they have not directly experienced Among the questions this groundbreaking work raises are Whose memory is it What will the collective memory of the Holocaust be in the twenty first century after the last survivors have

given testimony How in the aftermath of the Holocaust do we read and write literature and history How is the memory inscribed in film and art Is the appropriation of the Holocaust to political agendas a desecration of the six million Jews What will the children of survivors pass on to the next generation

Re-examining the Holocaust Through Literature Aukje Kluge, Benn E. Williams, 2009 In the late 1980s Holocaust literature emerged as a provocative but poorly defined scholarly field The essays in this volume reflect the increasingly international and pluridisciplinary nature of this scholarship and the widening of the definition of Holocaust literature to include comic books fiction film and poetry as well as the more traditional diaries memoirs and journals Ten contributors from four countries engage issues of authenticity evangelicalism morality representation personal experience and wish fulfillment in Holocaust literature which have been the subject of controversies in the US Europe and the Middle East Of interest to students and instructors of antisemitism national and comparative literatures theater film history literary criticism religion and Holocaust studies this book also contains an extensive bibliography with references in over twenty languages which seeks to inspire further research in an international context

Journal of the History of Sexuality, 2002

The A to Z of the Holocaust Jack Fischel, 2005 With the aging of the survivors of the Holocaust it is becoming increasingly vital that references dealing with this massively important event be made available The attempted extermination of the Jewish Race as well as the murders of millions of other victims the Nazis deemed inferior must not be forgotten The intention of this A to Z of the Holocaust is to focus on the unprecedented nature of the German assault on the Jews Its purpose therefore is to provide the reader with the facts of the Holocaust with an emphasis on the central role Jews played in the Nazi genocide The introductory essay provides the reader with an historical overview of the Holocaust and is followed by individual entries on the subject An extensive bibliography and chronology further supplement the usefulness of this volume This book is intended to be an easy to use reference tool for both the history scholar and student
