Determinants of Parenting Competence Among Adolescent Mothers Janet Ruth Shapiro, 1991 Life-span human development Carol K. Sigelman, David Reed Shaffer, 1991 This life span development text known for its clear authoritative writing style and its solid research orientation offers a topical organization at the chapter level and a consistent chronological presentation within each chapter. Each chapter focuses on a domain of development such as physical growth, cognition, or personality and traces developmental trends and influences in that domain from infancy to old age. Within each developmental chapter you will find sections on four life stages: Infancy, Childhood, Adolescence, and Adulthood. This unique organization enables students to comprehend the processes of transformation that occur within the many areas of human development. New co-author Elizabeth Rider brings to this edition her expertise in cognitive development and gender issues. Additional enhancements include a stronger emphasis on biological and cultural influences, a new four-color design, and an improved pedagogical plan. Handbook of Social Development Vincent B. Van Hasselt, Michel Hersen, 1992-08-31 Social development over one's lifetime is a complex area that has received considerable attention in the psychological, social psychological, and sociological literature over the years. Surprisingly, however, since 1969 when Rand McNally published Goslin's Handbook of Socialization, no comprehensive statement of the field has appeared in book form. Given the impressive data in this area that have been adduced over the last two decades, we trust that our handbook will serve to fill that gap. In this volume we have followed a lifespan perspective starting with the social interactions that transpire in the earliest development stages and progressing through childhood, adolescence, adulthood, and finally one's senior years. In so doing we cover a variety of issues in depth. The book contains 21 chapters and is divided into five parts: I Theoretical Perspectives, II Infants and Toddlers, III Children and Adolescents, IV Adults, and V The Elderly. Each of the parts begins with introductory material that reviews the overall issues to be considered. Many individuals have contributed to the final production of this handbook. Foremost are our eminent contributors who graciously agreed to share with us their expertise. We also thank our administrative and technical staff for their assistance in carrying out the day-to-day tasks necessary to complete such a project. Finally, we thank Eliot Werner, Executive Editor at Plenum, for his willingness to publish and for his tolerance for the delays inevitable in the development of a large handbook. **Adolescence**, 1984. An international quarterly devoted to the physiological, psychological, psychiatric, sociological, and educational aspects of the second decade of human life.

Essays on Issues in Applied Developmental Psychology and Child Psychiatry Amer A. Hosin, 2000 This collection describes and reviews some key applied areas relevant to child development, linking practice and theory. The topics covered include child rearing practices, children and violence, the development of fear, drugs, mental health, and social inequality. Encyclopedia of Adolescence Richard M. Lerner, Anne C.
