[With Reproductions and Portraits.]** Carl SCHEFFLER, 1938 **Art in an Age of Civil Struggle, 1848-1871** Albert Boime, 2008-09-15 From the European revolutions of 1848 through the Italian independence movement the American Civil War and the French Commune the era Albert Boime explores in this fourth volume of his epic series was in a word transformative The period which gave rise to such luminaries as Karl Marx and Charles Darwin was also characterized by civic upheaval quantum leaps in science and technology and the increasing secularization of intellectual pursuits and ordinary life In a sweeping narrative that adds critical depth to a key epoch in modern art's history *Art in an Age of Civil Struggle* shows how this turbulent social environment served as an incubator for the mid nineteenth century's most important artists and writers Tracing the various movements of realism through the major metropolitan centers of Europe and America Boime strikingly evokes the milieus that shaped the lives and works of Gustave Courbet Edouard Manet mile Zola Honor Daumier Walt Whitman Abraham Lincoln and the earliest photographers among countless others In doing so he spearheads a powerful new way of reassessing how art emerges from the welter of cultural and political events and the artist's struggle to interpret his surroundings Boime supports this multifaceted approach with a wealth of illustrations and written sources that demonstrate the intimate links between visual culture and social change Culminating at the transition to impressionism *Art in an Age of Civil Struggle* makes historical sense of a movement that paved the way for avant garde aesthetics and more broadly of how a particular style emerges at a particular moment [Adolph Menzel: 185 Colour Plates](#) Maria Peitcheva, 2016-07-10 Adolph Friedrich Erdmann von Menzel 1815 1905 was a German artist noted for drawings etchings and paintings Along with Caspar David

Friedrich he is considered one of the two most prominent German artists of the 19th century and was the most successful artist of his era in Germany His popularity in his native country owing especially to History Painting was such that few of his major paintings left Germany as many were quickly acquired by museums in Berlin Menzel s graphic works and drawings were more widely disseminated these along with informal paintings not initially intended for display have largely accounted for his posthumous reputation The paintings which were available to the public garnered recognition not only within Germany but from the French avant garde as well Edgar Degas admired and copied his work calling him the greatest living master Adolph Menzel , *The Challenge of the Avant-garde* Paul Wood,1999-01-01 The Challenge of the Avant Garde is the fourth of six books in the series Art and its Histories which form the main texts of an Open University course The course has been designed for students who are new to the discipline but will also appeal to those who have undertaken some study in this area This volume traces the challenge posed to the academic canon by the emergent avant garde of the early and mid nineteenth century It looks at significant shifts in the development of the concept both in moves away from the sense of social leadership to a desire for artistic autonomy in the later nineteenth century and then a reverse movement to bridge the gap between art and life in the revolutionary avant gardes of the early twentieth century The book closes with an examination of the eventual incorporation of the avant garde as a form of modern canon by the eve of World War II Throughout it seeks to relate the discourse of artistic avant gardism in all its forms to contemporary social and political histories Drawings and Paintings Adolph Menzel,2016-07-19 One of 19th century Berlin s premier artists Menzel exhibited tremendous powers of observation and technical perfection This volume contains 98 black and white images of his work plus 32 color plates **Exhibition of the Works of Adolph Menzel ... 1894** Adolph Menzel,1894 *Drawings and Watercolours by Adolph Menzel 1815-1905* Adolph Menzel,Irmgard Wirth,1965 **Adolph Menzel** Annette Schlagenhauff,Busch-Reisinger Museum,1991 *Art Masters # 83* Kipepeo Publishing,2016-04-22 Art Masters is a book series by Kipepeo Publishing 83 Adolph Friedrich Erdmann von Menzel December 8 1815 February 9 1905 was a German artist noted for drawings etchings and paintings Along with Caspar David Friedrich he is considered one of the two most prominent German artists of the 19th century and was the most successful artist of his era in Germany **Adolph Menzel** Werner Busch ,2017-04-03 The work of Adolph Menzel 1815 1905 is widely regarded as the epitome of realist art From the very beginning of his career he captured the beauty and horror of reality with unflinching precision and he was a consummate master of atmosphere A man of very short stature Menzel was excluded from many aspects of life and so his struggle with reality was also a struggle to assert himself Werner Busch s comprehensive new study sheds light on the biographical and historical events that shaped Menzel s work and the course it took Menzel s paintings of the life of Frederick the Great still dominate our image of the monarch Their modern perspective however neither glorified the king nor found favor with the Prussian royal family After witnessing the horror of war in the aftermath of the Battle of K niggr tz

Menzel abandoned history painting In Paris he discovered the energy and bustle of the heroless metropolis for the remainder of his career he devoted himself to painting scenes of contemporary life In this lavishly illustrated book Busch examines the artist s multifaceted oeuvre and brings the long nineteenth century into aesthetic focus **Adolph Menzel** ,1990

*Visualizing the Past* Kathrin Maurer,2013-03-22 Visual media had a decisive impact on how the past was perceived in historicist culture in nineteenth century Germany The panorama photography and book illustrations can portray the past under the auspices of spatiality Research on historicist culture often neglects this dimension of space and concentrates on traditional historicist paradigms such as temporality narrative and teleology By investigating the visual vocabulary of different historicist genres academic historiography illustrated history books historical maps this volume expands an understanding of German historicist culture as a multi medial phenomenon and shows that past is conveyed in spatial forms such as travel locations national and colonial spaces as well as geographical areas Tracing these concepts of historical space this volume demonstrates that the image works as a powerful tool to propagate the ideology of German imperialism in the nineteenth century but also can critically reflect the political agendas of national historicism **Adolph von Menzel** Adolf von Menzel,Felix Alexander Dargel,1961 *The German Classics of the Nineteenth and Twentieth Centuries* Kuno Francke,1914 **Prints and Drawings by Adolph Menzel** Adolph Menzel,Fitzwilliam Museum,1984
