*Adult-child Interaction and the Process of Language Acquisition* J. A. Rondal, 1985      [Learning through Language](#) Vibeke Grøver, Paola Uccelli, Meredith Rowe, Elena Lieven, 2019-05-09 Explores how children develop linguistic and literary competence from early childhood into adolescence in a diverse range of linguistic contexts      **Mathematics Education in the Early Years** Tamsin Meaney, Ola Helenius, Maria L. Johansson, Troels Lange, Anna Wernberg, 2016-01-22 This book presents chapters based on papers presented at the second POEM conference on early mathematics learning These chapters broaden the discussion about mathematics education in early childhood by exploring the debate about construction versus instruction Specific sections investigate the teaching and learning of mathematical processes and mathematical content early childhood teacher development transitions for young children between home and preschool between home and school and between preschool and school The chapters use a range of innovative theoretical and methodological approaches which will form an interesting basis for future research in this area      *Interaction in Human Development* Marc H. Bornstein, Jerome S. Bruner, 2014-01-14 *Interaction in Human Development* unites theoretical essays and empirical accounts bearing directly on the nature of interactions as a principal factor and organizing feature in human mental and social development The papers discuss all areas of interaction including genetic environmental life span interpersonal and cultural Ideal as a text for students and as a reference for professionals in personality developmental educational and environmental psychology psychotherapy behavioral medicine and language      **The Verbal Games of Pre-school Children** Susan Grohs Iwamura, 2022-11-21 Originally published in 1980 *The Verbal Games of Pre school Children* states that in the course of acquiring language every child recognizes that verbal interaction is a powerful tool which can be used to interpret and manipulate the world During the last previous two decades developments in the study of both language acquisition and linguistic theory had begun to illustrate that the acquisition of a first language involves considerably more than the mere learning of grammatical structure This view of learning had led researchers gradually to see children as more than grammarians devising grammatical constructs The tendency at the time was to see the child as an active partner in what are essentially games of communication and invention during which the rules of usage as well as the rules of grammar are discovered This study is based on extensive and detailed observation of the verbal interaction of two pre school children and as such offers far reaching ideas and conclusions concerning the manner in which all children determine the role of language in their lives whilst simultaneously learning how to piece it together      [Cahiers de psychologie cognitive](#) , 1988
