ADVANCED ACCOUNTING brings real world accounting topics to the student s level presenting advanced concepts and issues in a flexible step by step approach This is the only advanced book that completely separates the following three major concepts dealt with in the consolidations area 1 the general concept of consolidating 2 the concept of a non controlling interest and 3 the change or no change in basis of accounting concepts for business combinations Separating these concepts makes it much easier for students than having to simultaneously learn multiple concepts

**Advanced Accounting** Lawrence Robert Dicksee, 2015-06-04 Excerpt from *Advanced Accounting* The present work was commenced upwards of two years ago and was at that time primarily undertaken with a view to assisting candidates for the Final Examination of the Institute of Chartered Accountants to attain the high standard of knowledge which has been set at those Examinations during the past few years The pressure of other business however materially interfered with its rapid progress at that time and in the meanwhile there has been a general awakening on the part of both business men and educationalists to the importance of Accounting which has it is thought still further emphasized the desirability of such a work being issued as soon as possible The subject of Accounting has been included in the curriculum of the University of Birmingham for the part of all candidates for its Commercial degrees The University of London has introduced Accountancy and Business Method As an optional subject in connection with its Science degrees in the Economics section Instruction in the subject has also been arranged for by the newly founded Victoria University of Manchester and knowledge of Accounting will doubtless be required on the part of candidates for its degrees in Commerce Other provincial Universities have also been established during the past year and these doubtless in due course will create Faculties of Commerce which in their turn will serve to still further diffuse a thorough knowledge of Account The subject of Advanced Accounting has also been included in the scheme of instruction undertaken by the Commercial Education Committee of the London Chamber of Commerce while the standard in Accounts required by examiners for the Institute of Chartered Accountants and other organized bodies of professional Accountants throughout the United Kingdom is steadily becoming more and more exacting It has been my privilege to be in no small degree associated with this movement by being called upon to impart instruction in Accounts in connection with certain of

these undertakings and as a result I have been led to the belief that a work dealing adequately with the whole range of subject embraced would meet a want that has hitherto been experienced doubtless by other teachers beside myself It might perhaps be thought that a work designed upon these comprehensive lines could not be equally suitable and equally useful to both Accountant Student and other who while desiring a knowledge of Accounts had yet no intention of entering the profession of accountancy But inasmuch as the object is in all cases presumably to acquire a thorough knowledge of the science of Accounts it is thought that the requirements of these various classes of Students if not absolutely identical have at least very much in common and are therefore capable of being from the same source About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
