Advanced Chinese:

The Routledge Advanced Chinese Multimedia Course Kunshan Carolyn Lee, Hsin-hsin Liang, Liwei Jiao, Julian Wheatley, 2014-03-26 The Routledge Advanced Chinese Multimedia Course Crossing Cultural Boundaries is an innovative multimedia course for advanced students of Chinese. Written by a team of highly experienced instructors, the book offers advanced learners the opportunity to consolidate their knowledge of Chinese through a wide range of activities designed to build up both excellent language skills and cultural literacy. Divided into four thematic units covering popular culture, social change, cultural traditions, and politics and history, with each unit presenting three individual lessons, the volume provides students with a structured course which efficiently supports the transition from an intermediate to an advanced level. The many different texts featured throughout the lessons present interesting and accurate information about contemporary China and introduce students to useful vocabulary, speech patterns, and idiosyncratic language usage. Key features include lively and detailed discussions of grammatical points and sentence patterns, engaging exercises for developing grammatical concepts and insight into the character writing system, systematic review of earlier material to ensure consolidation of learning, coverage of diverse and culturally relevant topics such as online dating, changing views of marriage, food culture, Confucianism, and democracy in China, extensive cultural and historical notes providing background to the subjects presented, complementary downloadable resources to enhance listening skills, free companion website <http://duke.edu/web/chinesesoc> offering a wealth of video content forming the basis of many of the listening activities linked to topics within the book. Extensively revised and updated throughout, this new edition includes new material and activities on synonyms and substantial improvements to the composition focus on characters and Language Practicum sections. The improved Instructor's Resource Manual, which includes activity tips, additional exercises, answer keys, and the traditional character texts, is available at <http://www.routledge.com/books/details/9780415841337>.

Reading to Write: A Textbook of Advanced Chinese Zu-yan Chen, 2018-08-15 Traditionally, reading and writing are believed to be separate but related language processes, and teachers follow the conventional wisdom of teaching in depth, reading with writing as a tag on issue. Therefore, there exists an increasingly urgent call for a well-rounded reading-writing curriculum and a theoretically informed, empirically based, student-centered advanced textbook that aims to develop the synergy between reading and writing. *Reading to Write: A Textbook of Advanced Chinese* is intended to fill this significant gap. It treats reading and writing as integrative parts and interactive skills in Chinese language teaching, putting them hand in hand, supplementing each other.

□□□□ Yanfang Tang, □□□, 2004-10 Written and designed for advanced learners of Chinese, this book and its accompanying audio program focus on the variety of linguistic strategies that are essential in real-life communications. The lessons include texts that are representative of current life in China and that are authentic works of literature. Five types of discourse are considered in detail: narration, description, persuasion, exposition, and lyrical expression. With carefully crafted vocabulary

grammar and exercise sections in each lesson the book assists learners in improving writing and speaking skills recognizing the difference between colloquial discourse and more formal discourse and acquiring a sophisticated understanding of the meanings and nuances of the language The authors also include a useful list of supplementary readings that may be used to enhance the texts in the book Audio files are online at yalebooks.com/advancedchinese
