## **Dogs A New Understanding Of Canine Origin Behavior And Evolution:**

Dogs Raymond Coppinger, Lorna Coppinger, 2002-10 Offering a scientifically informed perspective on canines and their relations with humans two biologists take a close look at eight different types of dogs household village livestock guarding herding sled pulling pointing retrieving and hound 34 halftones **What Is a Dog?** Raymond Coppinger, Lorna Coppinger, 2016-04-27 Exploring the natural history of these creatures the Coppingers explain how the village dogs of Vietnam India Africa and Mexico are strikingly similar These feral dogs argue the Coppingers are in fact the real representative dogs nearly uniform in size and shape and incredibly self sufficient Drawing on nearly five decades of research they show how dogs actually domesticated themselves in order to become such sufficient scavengers of human refuse The Coppingers also examine the behavioral characteristics that enable dogs to live successfully and to reproduce unconstrained by humans in environments that we ordinarily do not think of as dog friendly From publisher description

**Dog Behaviour, Evolution, and Cognition** Adam Miklosi, 2014-12-11 This is the first book to collate and synthesize the recent burgeoning primary research literature on dog behaviour evolution and cognition The author presents a new ecological approach to the understanding of dog behaviour demonstrating how dogs can be the subject of rigorous and productive scientific study without the need to confine them to a laboratory environment This second fully updated edition of Dog Behaviour Evolution and Cognition starts with an overview of the conceptual and methodological issues associated with the study of the dog followed by a brief description of their role in human society An evolutionary perspective is then introduced with a summary of current research into the process of domestication The central part of the book is devoted to issues relating to the cognitive aspects of behaviour which have received particular attention in recent years from both psychologists and ethologists The book's final chapters introduce the reader to many novel approaches to dog behaviour set in the context of behavioural development and genetics This second edition recognises and discusses the fact that dogs are increasingly being used as model organisms for studying aspects of human biology such as genetic diseases and ageing Specific attention is also given in this edition to attachment behaviour which emerges between humans and dogs the importance of inter specific communication in the success of dogs in human communities and the broad aspects of social cognition and how this may contribute to human dog cooperation Directions for future research are highlighted throughout the text which also incorporates links to human and primate research by drawing on homologies and analogies in both evolution and behaviour The book will therefore be of relevance and use to anyone with an interest in behavioural ecology including graduate students of animal behaviour and cognition as well as a more general audience of dog enthusiasts biologists psychologists veterinarians and sociologists The Dog Linda P. Case, 2023-03-09 The Dog In depth coverage of canine domestication breeding behavior and cognition training health care and nutrition Now in its third edition The Dog remains a definitive textbook regarding dogs and their care written in clear accessible language the text provides updated

and expanded coverage of selective breeding training principles solutions to common behavior problems diet and nutrition and preventive health care New sections in this edition include information about dog breeds and selective breeding practices genetic testing programs canine social cognition and communication manners training and common behavior problems popular dog sports and new information regarding health care and disease prevention Enhanced with distinctive figures and tables the text provides current references suggested readings updated tables and references and a thorough glossary to aid in comprehension In *The Dog* readers can expect to find detailed information about Canine behavior reward based approaches to training health care and disease prevention new information about pet foods and nutrition and a review of research regarding the unique social cognition of the domestic dog Breed specific diseases and their genetic testing canine infectious viruses and atopic disease and new vaccines and vaccination schedules Interspecies communications between dogs and humans prevention and management of common behavior problems in dogs and pet food selection and recommended feeding practices More detailed and comprehensive than many other dog books *The Dog* is an indispensable tool for veterinarians veterinary technicians trainers behaviorists breeders animal shelter and rescue group staff and dog owners Academically *The Dog* is a useful textbook for second or third year students who have completed at least one college level biology course

**The First Domestication** Raymond Pierotti, 2017-11-28 A riveting look at how dog and humans became best friends and the first history of dog domestication to include insights from indigenous peoples In this fascinating book Raymond Pierotti and Brandy Fogg change the narrative about how wolves became dogs and in turn humanity's best friend Rather than describe how people mastered and tamed an aggressive dangerous species the authors describe coevolution and mutualism Wolves particularly ones shunned by their packs most likely initiated the relationship with Paleolithic humans forming bonds built on mutually recognized skills and emotional capacity This interdisciplinary study draws on sources from evolutionary biology as well as tribal and indigenous histories to produce an intelligent insightful and often unexpected story of cooperative hunting wolves protecting camps and wolf human companionship This fascinating assessment is a must read for anyone interested in human evolution ecology animal behavior anthropology and the history of canine domestication
