Doing your Research Project in Sport Chris Lynch,2010-05-20 The research project is a major component of most higher education sport courses While undertaking a research project can be an exciting and rewarding experience it can all too easily lead to stress and disappointment Mistakes made early in the process in the design of experiments for example can lead to frustration later on This accessible book guides students through the process from the initial stages of research identifying problems and designing questions right through to the presentation of their findings

Doing Your Research Project with Documents Aimee Grant,2022-03-15 Students and researchers have an abundance of materials and sources available to them via the internet for use in their projects However there is little practical guidance available on the fundamentals of performing qualitative research with documents This valuable book enables readers to undertake high quality robust research using documents as data Encouraging critical consideration of research design the book guides readers step by step through the process of planning and undertaking a research project based on documentary analysis It covers selecting a research topic and sample through to analysing and writing up the data The book includes a wealth of case studies demonstrating how lessons can be applied in practice summary boxes and suggestions for further reading in each chapter to guide learning helpful online resources to facilitate designing your own research Accessible and comprehensive this book will be invaluable for both students and researchers alike who are new to documentary analysis All the resources included in this book are available to download on the book s webpage at <https://policy.bristoluniversitypress.co.uk> doing your research project with documents online resources Look for the Online Resources logo throughout the book

Doing Your Research Project Judith Bell,1999 Why do ethnic groups adopt violent means In the 1990 s ethnicity

emerged as the principle source of organized violence around the world Ethnic wars were no longer internal conflicts between substate actors instead they challenged state sovereignty and taxed the international community's ability to respond Efforts to understand ethnic conflict remain divorced from the study of systemic change and the declining authority capacity and legitimacy of weak multiethnic states This work proposes that the phenomenon of ethnic violence must be understood through a multilevel approach and that finding a solution to ethnic violence is possible only if we have a clear understanding of the sources that spark such violence in the first place The Three Images of Ethnic War identifies the causes of ethnic war at three levels of analysis the group the state and the international These are the three images of ethnic war This book places the outbreak of violence within context of the state and the international system in which the violence unfolds Hanlon examines three violent ethnic wars in Yugoslavia Nagorno Karabakh and Iraq Yugoslavia's violent ethnic wars the war over Nagorno Karabakh and the violent conflict between Kurds and Arabs in Iraqi Kurdistan demonstrate that ethnic violence is a complex and multifaceted occurrence Hanlon argues that the numerous reasons why groups adopt violent means can only be understood through a multilevel framework of the three images of ethnic war and the interrelationship among them

Doing Your Research Project Judith Bell, 1993 If you are a beginner researcher the problems facing you are much the same whether you are producing a small project an MEd dissertation or a PhD thesis You will need to select a topic identify the objectives of your study plan and design a suitable methodology devise research instruments negotiate access to institutions material and people collect analyse and present information and finally produce a well written report or dissertation Whatever the scale of the undertaking you will have to master techniques and devise a plan of action which does not attempt more than the limitations of expertise time and access permit We all learn to do research by actually doing it but a great deal of time can be wasted and goodwill dissipated by inadequate preparation This book aims to provide you with the tools to do the job to help you avoid some of the pitfalls and time wasting false trails that can eat into your time and to establish good research habits It takes you from the stage of choosing a topic through to the production of a well planned methodologically sound and well written final report or dissertation on time Doing Your Research Project serves as a source of reference and guide to good practice for all beginner researchers whether undergraduate and postgraduate students or professionals such as teachers or social workers undertaking investigations in Education and the Social Sciences This second edition retains the basic structure of the very successful first edition whilst incorporating some important new material
