Domain Name Arbitration Gerald M. Levine, 2015-06-01 Domain Name Arbitration A Practical Guide to Asserting and Defending Claims of Cybersquatting Under the Uniform Domain Name Dispute Resolution Policy by Gerald M Levine Esq with a Foreword by Hon Neil A Brown QC is an invaluable for attorneys and others in the domain name ownership and investing fields The Uniform Domain Name Dispute Resolution Policy UDRP was implemented by the Internet Corporation for Assigned Names and Numbers ICANN in 1999 Between 2000 when the first domain name case was decided and 2015 there have been over 45 000 decided cases That s approximately 3 500 to 4 000 decisions annually Parties never confront each other in person as they do in a court of law The entire procedure takes place online The UDRP is a quick efficient and relatively inexpensive regime for determining rights to domain names Trademark owners can challenge domain name registrants for infringement of their rights to the exclusive use of their marks on the Internet Decisions are then posted online within 45 days of the submission of the complaint From these decisions has emerged a unique body of domain name law One of the several truths gained from the collective wisdom of panelists who decide UDRP cases is that parties often fail to understand the evidentiary demands they must satisfy to succeed Domain Name Arbitration is the most comprehensive and in depth work on the jurisprudence of domain names It fully describes and illustrates with case law the procedural process and proof elements required of the parties In addition it thoroughly explores the law governing registration and use of domain names that are identical or confusingly similar to trademarks The book provides an analytical description of the process and a step by step examination of the evidentiary elements that parties must satisfy to establish the merits of a claim or defense of infringement As the Honorable Neil A Brown Queens Counsel in Melbourne Australia writes in the book s Foreword Domain Name Arbitration puts flesh on the bones by illustrating how
