## **Domestication The Decline Of Environmental Appreciation:**

Domestication H. Hemmer,1990-07-27 A study showing the importance of domestic animals to the development of human civilisation

**Encyclopedia of Environment and Society** Paul Robbins,2007-08-27 As befits the topic this beautifully packaged wonderfully illustrated interdisciplinary resource has more than 1200 entries written by specialists A helpful reader s guide groups topics like agriculture conservation and ecology movements and regulations politics pollution and society A resource guide chronology glossary and list of the UN s economic indicators complete the set Library Journal this important work gives a well focused snapshot of environmentalism in the early 21st Century and it will remain valuable into the future both for its content and as a yardstick to measure progress toward sustainability and conservation Summing Up Recommended Undergraduates and general readers CHOICE Booklist Editors Choice 2008 This superb interdisciplinary work should find a place on the shelves of every public and academic library that has the least bit of interest in environment issues which should mean just about all Booklist Starred Review Where does the environment leave off and society begin When expanding production and consumption drives greenhouse gas emissions that warm the planet which in turn influence the conditions of economic expansion it is unclear where the climate ends and the economy begins This fact is not new to our era however our social and natural sciences have only recently come to grips with the incredible complexity of the world described by understanding the environment and society as being of a piece As a result in the last decade there has been an unprecedented explosion of new concepts theories facts and techniques that follow from such an understanding The Encyclopedia of Environment and Society brings together multiplying issues concepts theories examples problems and policies with the goal of clearly explicating an emerging way of thinking about people and nature With more than 1 200 entries written by experts from incredibly diverse fields this innovative resource is a first step toward diving into the deep pool of emerging knowledge The five volumes of this Encyclopedia represent more than a catalogue of terms Rather they capture the spirit of the moment a fascinating time when global warming and genetic engineering represent only two of the most obvious examples of socio environmental issues Key Features Examines many new ideas about how the world works what creates the daunting problems of our time and how such issues might be addressed whether by regulation markets or new ethics Demonstrates how theories of environmental management based on market efficiency may not be easily reconciled with those that focus on population and both may certainly diverge from those centering on ethics justice or labor Offers contributions from experts in their fields of specialty including geographers political scientists chemists anthropologists medical practitioners development experts and sociologists among many others Explores the emerging socio environmental problems that we face in the next century as well as the shifting and expanding theoretical tools available for tackling these problems Covers regions of North America in greater detail but also provides a comprehensive picture that approaches as effectively as possible a cohesive global vision Key Themes Agriculture Animals Biology and Chemistry

Climate Conservation and Ecology Countries Geography History Movements and Regulations Organizations People Politics Pollution Society Packed with essential and up to date information on the state of the global socio environment the Encyclopedia of Environment and Society is a time capsule of its historic moment and a record of where we stand at the start of the 21st century making it a must have resource for any library These inspiring volumes provide an opportunity for more new ways of thinking behaving and living in a more than human world Exmoor ponies and the livestock genesis of the horse Helmut Hemmer,2024-10-01 Die Ansicht um die wahre Natur der im Moorheidegebiet des Exmoors im S dwesten Englands frei lebenden Ponys pendelte in den letzten hundert Jahren mehrfach hin und her zwischen einer sehr urspr nglich gebliebenen Hauspferderasse und einem berlebenden Wildpferd F r die Kl rung dieses Problems entscheidend wichtige quantitative Verhaltensstudien zum Wild oder Viehwesen dieser Pferde und pal ontologische Vergleichsstudien fehlten weitgehend Dieses Buch bringt nun die L sung zugunsten einer Reliktpopulation des Europ ischen Bergponys und weist damit das kaum f r m glich gehaltene Fortleben eines bedeutenden britischen und gesamteurop ischen Naturerbes nach

**Model Animals in Neuroendocrinology** Mike Ludwig,Gil Levkowitz,2018-08-20 Model Animals in Neuroendocrinology From Worm to Mouse to Man offers a masterclass on the opportunities that different model animals offer to the basic understanding of neuroendocrine functions and mechanisms of action and the implications of this understanding The authors review recent advances in the field emanating from studies involving a variety of animal models molecular genetics imaging technologies and behavior assays These studies helped unravel mechanisms underlying the development and function of neuroendocrine systems The book highlights how studies in a variety of model animals including invertebrates fish birds rodents and mammals has contributed to our understanding of neuroendocrinology Model Animals in Neuroendocrinology provides students scientists and practitioners with a contemporary account of what can be learnt about the functions of neuroendocrine systems from studies across animal taxonomy This is the seventh volume in the Masterclass in

**Pastoralism in the Levant** Ofer Bar-Yosef,Anatoly Michailovich Khazanov,1992 The last decades have brought to light many archaeological discoveries relevant to the study of prehistoric pastoralism in the Near East The renewed interest in pastoralists who often solely occupied the semi arid region arose amongst archaeologists when the origins of agriculture especially the cultivation of cereals and legumes and the domestication of goats and sheep attracted attention Excavations of Late Paleolithic and Early Neolithic sites in the Levant and the hilly flanks of the Taurus and Zagros have demonstrated that the information drawn from sites in the sown land is insufficient to clarify the Near Eastern origins of animal husbandry and incipient pastoralism The lack of evidence from the Syro Arabian desert and Sinai has distorted our understanding of socioeconomic regional developments A partial correction is now provided by the efforts of those archaeologists who have published the results of surveys and excavations over the last fifteen years The available data sets indicate that the potential for studying the origin of pastoralism definitely lies in this vast region The accumulation of archaeological zoological and botanical evidence since the late 1950s has enabled new hypotheses concerning the emergence of early food producing economies and the incipient phases of animal domestication and husbandry In this prehistoric context the origin of pastoralism in general and of pastoral nomadism in particular together with their relationship to other types of food producing economies has already been examined Therefore it seemed to us that the time had come to concentrate on three levels a to summarize in broad outline the present knowledge of prehistoric forms of pastoralism in the Levant b to attempt

the more challenging task of integrating different archaeological anthropological and historical approaches and to offer a comprehensive or alternative explanatory model of the origins of pastoralism and c to try to understand the intricate relationships between pastoral and agrarian urban societies based mainly on the archaeological records of the region We did not of course expect that all the various anthropological archaeological and archaeozoological problems surrounding this issue could be resolved However we hoped that by bringing together the data and ideas of contemporary scholars we might be able to formulate better questions
