## **Dominguez Air Meet:**

**The 1910 Los Angeles International Air Meet** Kenneth E. Pauley, 2009 America's first international air meet was held January 10-20, 1910 in Los Angeles on a mesa called Dominguez Hill situated 13.5 miles south of the plaza at the pueblo of Los Angeles. Enthusiasm for aviation grew after the first international air meet in 1909 in Rheims, France, where American aviator Glenn H. Curtiss won three prestigious speed prizes and 36,000 francs. An even more spectacular air meet which would also invigorate the local economy was promoted for Los Angeles by businessman Dick Ferris, the Los Angeles Merchants and Manufacturers Association, and the Los Angeles Examiner, who collaborated to make it possible. Most Americans had never seen the newfangled machines that soared in the skies. Initially skeptical, they soon were awed. So began America's love affair with aviation. The air meet influenced aviation in Southern California and transportation worldwide into the 21st century.

*Ragwings Over The Sacramento River* Allen Herr, Kathe Herr, 2020-10-18 Historical accounts of the first successful flight in California's capital city and other notable Northern California flights that followed over three decades, the courageous aviators, and development of long forgotten airports from which they flew. Among them is the story of aviatrix Blanche Stuart Scott's 1912 flights and Sac Muni female pilots twenty years later. Included is the first accurate history of early ag flying in the north state, revolutionizing the farmers. This is part of a three-book series on Northern California's aviation history, 1909-1939.

*Flying Adventurers* David K. Vaughan, 2023-05-29 Aviation books were a unique and prolific subgenre of American juvenile literature from the early to mid-20th century, drawing upon the nation's intensifying interest. The first books of this type, Harry L. Saylor's series *Airship Boys*, appeared shortly after the Wright brothers' first successful flight in 1909. Following Charles Lindbergh's solo flight across the Atlantic, popular series like *Ted Scott* and *Andy Lane* established the golden age of juvenile aviation literature. This work examines the 375 juvenile aviation series titles published between 1909 and 1964. It weaves together several thematic threads, including the placement of aviation narratives within the context of major historical events, the technical accuracy in depictions of flying machines, and the ways in which characters reflected the culture of their eras. Three appendices provide publication data for each series.
