the Comediantes, 1951 *The History of the Popes* Leopold von Ranke, 1889 **An Introduction to the Major Works**
of Franz Grillparzer, 1791-1872, German Dramatist and Poet Ian Frank Roe, 1991 This work provides a general survey
with the main emphasis on the thematic and dramatic content of the plays genesis and background structure characters
major themes as well as questions of language style and imagery especially where these contribute to the play s theatrical
effectiveness This work s most important contribution to scholarship is the investigation of Grillparzer s interest in the
Classical generation of writers reflected in almost all his works either in the form of a debt to a particular work or in the
echoing of key philosophical themes of the period Grillparzer s mature works reveal an interest in high ideals on the one
hand and a recognition of the demands of everyday reality on the other while the formal precision of Classical drama is
enriched by a theatrical immediacy in keeping with Viennese traditions This combination reflects the conflicts in Grillparzer s
own personality and results in a considerable degree of ambiguity in the presentation of characters and themes but it is
precisely such a rejection of easy solutions in his works that ensures their relevance for a modern audience
