## **Doing Philosophy 2nd:**

**Doing Philosophy** Clare Saunders, Danielle Lamb, David Mossley, George MacDonald Ross, Julie Cross, 2013-01-03 Doing Philosophy provides a practical guide to studying philosophy for undergraduate students. The book presents strategies for developing the necessary skills that will allow students to get the most out of this fascinating subject. It examines what it means to think, read, discuss, and write philosophically, giving advice on reading and analysing philosophical texts, preparing for and participating in seminars, choosing essay topics, constructing arguments, and avoiding plagiarism. Using libraries, the internet, and other resources, technical terms, forms of expression, and logical notation are explained. The second edition is fully revised and expanded throughout, packed with practical exercises, useful examples, and fully up-to-date resources. It also features for the first time a full companion website with additional resources and a range of pedagogical tools and activities designed for students and lecturers to use both in the classroom and in seminar preparation. Concise and accessible, **Doing Philosophy** equips the student with the tools needed to successfully engage in discussing, reading, and writing philosophy. **Doing**

**Philosophy** Joel Feinberg, 2005. Write a good philosophy paper with **DOING PHILOSOPHY: A GUIDE TO THE WRITING OF PHILOSOPHY PAPERS**. With coverage of topics such as outlines, drafts, proper and improper quotation, argument development, and evaluation principles, good writing criteria for grading student papers, and a review of common grammatical and dictional errors, this philosophy text provides you with the tools you need to prepare a good argument and write a good paper. Models of excellent and poor philosophy papers provide you with real-world examples of what to aim for and what to avoid.
