*Reasons and Purposes* G. F. Schueler,2003-01-16 People do things for reasons But philosophers have disagreed sharply about how reasons explanations of actions actually work and hence about their implications for human freedom and autonomy The dominant view in contemporary philosophy is the Humean idea that the beliefs and desires that constitute our reasons for acting simply cause us to act as we do Fred Schueler seeks to replace such causal views arguing that they leave out two essential elements of these explanations Reasons explanations are inherently teleological in the sense that the agent s reasons always explain the purpose for which he acted They are also inherently normative since it is always possible that an agent s reasons for doing something are not good reasons Schueler argues that causal accounts of reasons explanations make no sense of either of these features heargues instead for an account based on practical deliberation our ability to evaluate the reasons we accept *Student Success in Medical School E-Book* Raman Mehrzad,2021-03-05 Using proven

This is Volume VI of twelve in the Library of Philosophy series on Ethics Written in 1971 this text looks at our knowledge of right and wrong and looks at topics of whether our knowledge of morality is a delusion and asks questions around moral judgment and they are subjective the Universalization principle of a moral sense God s commandments and human duties and finishes with suggestions of other reasons for actions *Capitalism Beyond Mutuality?* Subramanian

Rangan,2018-05-11 Our quest for prosperity has produced great output but not always great outcomes The growing list of

concerns includes climate and natural capital abuse of wealth and market power economic insecurity gender bias and disparity competitive and immoderate consumption and unhealthy lifestyles Fundamentally when it comes to well being fairness and the scope of our humanity the modern economic system still leaves much to be desired In turn trust in business and the liberal market system a k a capitalism has been declining and regulation has been rising Thankfully a variety of forces civic economic and intellectual have been probing for better alternatives The contributions in this volume coauthored by eminent philosophers social scientists and thoughtful business leaders are submitted in this spirit Mutuality or the exchange of benefits has been established as the prime principle of action and inter action in addressing the chronic dilemma of human interdependence Mutuality is a fundament in the social contract approach and it continues to serve us well But to address more robustly the concerns outlined above we need to conceive a cultural economic system that is anchored on more than mutuality In particular we must help evolve an economic paradigm where mutuality is more systematically complemented by reasoned and elective morality Otherwise the design of the state as protector and buffer between the market and society will remain the central if inadequate remedy The essays in this volume integrate philosophy and social science to outline and explore concrete approaches to these important concerns emanating from business practice and theory
