The Domino Conspiracy Joseph Heywood, 2015-03-01 Autumn 1960 Nikita Khrushchev is politically adept visionary and locked in a fight with the Politburo and a battle with Mao and the Chinese His country and his political future are in trouble because he has opened doors to the West and espoused the doctrine of peaceful coexistence Meanwhile the arms race is crushing the Soviet economy and there is unrest throughout the Communist empire Changes are imperative The army must be reduced money redirected to a consumer economy and the US neutralized But the old boards of the Red Army will not be easily displaced its leaders are intent on saving their country from Khrushchev A cabal of senior Red Army patriots are led by a man who the world thinks is Khrushchev's unswerving toady The game is treason and the tools are Albania's mad dog leaders for whom assassination is second nature What begins subtly soon turns brittle A rocket technician disappears before a major accident at the Soviet Space Center In Belgrade a psychotic CIA agent escapes an ambush vows revenge and disappears Khrushchev turns to the Special Operations Group the elite hunting team featured in the author's prequel THE BERKUT In Washington the Bay of Pigs invasion is in the final planning stages and its timing is tied to the missing CIA agent He must be found Two teams one from Russia and one from the United States begin a desperate hunt that leads them on an inward spiral toward each other and to a lethal showdown at the 1961 summit in Vienna There they find themselves in an uneasy alliance as they race to find the American renegade and the Albanian death team both groups pawns in a global chess game With a vast canvas of disparate characters and events The Domino Conspiracy is a coruscating tour de force Breathhtakingly suspenseful it lays open the myths of the Soviet monolith and reveals the delicate seeds of glasnost and perestroika movements that were not to flower until three decades later Readers know how the Soviet story ended now they will see how it all began

The Tiger Roars Christian Omlin, 2014-01-16 The poems in this collection were part of a healing journey without any filtering by the mind they brought with them insights incredible peace and a new way of living The choice of topics for this anthology was not haphazard The main challenge of this journey was to come to grips with emptiness that seems ubiquitous in this world and the realization that people's emptiness is theirs to own and live with As this insight grew it was necessary to find sources of richness in the world in order to find balance awareness emerged as the main sources of joie de vivre Early poems on hope and faith pointed the way into the future and built the foundation for acceptance and a new way of living The final topic of love and soul was very unexpected as it developed as the result of a wonderful change in my life Through an extraordinary and unlikely chain of events I met an amazing generous warm kind and strong woman who is full of joy love laughter and passion for life Within only a few weeks I came to realize that she was my soulmate I never knew that such a love could exist This anthology is thus also the story of this meeting The crisis and its subsequent miraculous resolution and journey have redirected my life and my relationships in surprising new

This book provides an analysis of American intervention in China from World War II to the rapprochement Richard Nixon began in 1972 One of the major themes of the work is that the United States should avoid judging China by Western standards The United States learned this after twenty eight years of attempting to impose its own standards of democratic representative government on China Alexander also contends that the United States acted against its own interests when it supported the Nationalists and that the United States accused the Chinese Communists of aggressive policies in East Asia when in fact they did not pursue aggressive policies The book traces the origins of the American interest in China based on Roosevelt s hope to use China as a partner of the United States to preserve the peace in East Asia It covers the U S failure to realize that most Chinese people supported the Communist revolution and the U S attempt to keep the reactionary Nationalists in power after they lost the Civil War Next the work considers the misconception that Red China was an instigator of the Korean War the U S attempt to destroy the North Korean state and China s decision to intervene to prevent American forces from proceeding to its frontier The text also traces the adoption of Taiwan as an American protectorate the

flirtation with atomic war to protect the Nationalist held islands of Quemoy and Matsu and the decades long U S policy of denying Communist China a seat at the UN The work concludes with Nixon s decision to recognize China because U S policy was threatening world peace and order **U.S. News & World Report** ,1995 **The Johnson Presidency** Kenneth W. Thompson,1986 *Enemies by Design* Greg Felton,2005 An Arab proverb has it Whom the gods would destroy they first drive mad Empires do the same Through the lens of a life of bin Laden we follow the US UK footprint on the Arab world fostering reactionary regimes to divide and conquer forging pretexts to invade Iraq Afghanistan Palestine and falling prey to a corrupt cult of violence and obscurantism called fascism In war the gods themselves go mad George W Bush s war on terrorism is a folly committed in the name of a foreign state s self interest That state is Israel How the U S became an instrument of Israeli foreign policy and how this subordination is responsible for the official bigotry toward Arabs and Muslims is the main theme of this book Only from this perspective can the war on terrorism be fully understood Journal of Conflict Studies ,1996
