Donovans Brain Hausers Memory:

Donovan's Brain & Hauser's Memory Curt Siodmak,1992 An ambitious doctor experiments on and becomes controlled by the brain of a dead millionaire in Donovan s Brain and in Hauser s Memory a doctor unwittingly absorbs the memory of a dying scientist into his own brain Reprint [Forrest J. Ackerman Presents Hauser's Memory](#) Curt Siodmak,Forrest J. Ackerman,1999-05-01 Twenty five years after Donovan s Brain now a classic of science fiction came a superb new novel from the pen of Curt Siodmak Once again the author probed the horizons of scientific endeavour in an extraordinary story which blended science fiction with international intrigue An once again he featured D Patrick Cory the biochemist who figures in Donovan s Brain Cory the world s leading authority on RNA ribonucleic acid the brain substance in which memory is stored is approached by the CIA and asked to conduct a weird and dangerous experiment to remove the RNA from Hauser a dying German scientist who has defected from the Russians and inject it into another man in the hope of releasing the German s secrets At first Cory is appalled But Slaughter the CIA man has thought of everything even to providing a suitable subject for the bizarre experiment The experiment succeeds but to an extent which neither Cory nor Slaughter could anticipate For it is not only Hauser s memory that is transferred With it go his obsessions his dreams his emotions his character gradually insidiously And there begins the bitter struggle as Hauser s memory tries to posses its new mind the mind of a man who is acutely aware of what is happening to him The dead German s monomaniacal quest for vengeance that soon involves security elements from both East and West in a thrilling international chase and the final chilling confrontation between the man possessed by Hauser and the object of Hauser s search combine to make an enthralling suspenseful and utterly credible science fiction novel which is a fitting successor to Donovan s Brain **Horror Film and Otherness** Adam

Lowenstein,2022-07-19 What do horror films reveal about social difference in the everyday world Criticism of the genre often relies on a dichotomy between monstrosity and normality in which unearthly creatures and deranged killers are metaphors for society s fear of the others that threaten the normal The monstrous other might represent women Jews or Blacks as well as Indigenous queer poor elderly or disabled people The horror film s depiction of such minorities can be sympathetic to their exclusion or complicit in their oppression but ultimately these images are understood to stand in for the others that the majority dreads and marginalizes Adam Lowenstein offers a new account of horror and why it matters for understanding social otherness He argues that horror films reveal how the category of the other is not fixed Instead the genre captures ongoing metamorphoses across normal self and monstrous other This transformative otherness confronts viewers with the other s experience and challenges us to recognize that we are all vulnerable to becoming or being seen as the other Instead of settling into comforting certainties regarding monstrosity and normality horror exposes the ongoing struggle to acknowledge self and other as fundamentally intertwined Horror Film and Otherness features new interpretations of landmark films by directors including Tobe Hooper George A Romero John Carpenter David Cronenberg Stephanie Rothman

Jennifer Kent Marina de Van and Jordan Peele Through close analysis of their engagement with different forms of otherness this book provides new perspectives on horror s significance for culture politics and art *Encyclopedia of Pulp Fiction Writers* Lee Server,2014-05-14 Provides an introduction to American pulp fiction during the twentieth century with brief author biographies and lists of their works [Poverty Row HORRORS!](#) Tom Weaver,1993-01-01 Poverty row horror films were usually inexpensively some would say cheaply produced with writing that ranged from bad to atrocious Yet these movies with their all star horror casts Carradine Lugosi Karloff et al and their ape men mad monsters devil bats and white zombies still have a loyal audience 50 years after their release Essays contain full filmographic data on the 31 horror chillers made by the three studios from 1940 through 1946 and are arranged by year of release Each entry includes the date of release length production credits cast credits interview quotes and a plot synopsis with critical commentary Filmographies for prominent horror actors and actresses from John Abbott to George Zucco are provided in the appendices **Performing Brains on Screen** Fernando Vidal,2025-10-01 Performing Brains on Screen deals with film enactments and representations of the belief that human beings are essentially their brains a belief that embodies one of the most influential modern ways of understanding the human Films have performed brains in two chief ways by turning physical brains into protagonists as in the brain movies of the 1950s which show terrestrial or extra terrestrial disembodied brains carrying out their evil intentions or by giving brains that remain unseen inside someone s head an explicitly major role as in brain transplantation films or their successors since the 1980s in which brain contents are transferred and manipulated by means of information technology Through an analysis of filmic genres and particular movies Performing Brains on Screen documents this neglected filmic universe and demonstrates how the cinema has functioned as a cultural space where a core notion of the contemporary world has been rehearsed and problematized **Strike of the Cobra** Timothy Rizzi,1994 A space shuttle down a load of nukes aboard a race to save the world The Cobra Team consisting of advanced technology aircraft and crews must mobilize every high tech resource at its disposal before the space shuttle and its deadly cargo fall into enemy hands bent on global annihilation **Cursed Be the Child** Mort Castle,1990 Loving her new home and its big basement five year old Missy is unaware thather imaginary playmate Lisette is the tortured soul of a murdered child whois determined to get revenge on a cruel world for her destroyed life [Nature & Science on the Pacific Coast](#) ,1915 *Gabriel's Body* Curt Siodmak,1992 The biochemist thought a brain dead but physically flawless young man was a perfect subject But soon Cory learns that Gabriel s body had a will of its own and it needed his mind to live again *Neuroscience in Science Fiction Films* Sharon Packer, M.D.,2014-11-20 As the gap between science fiction and science fact has narrowed films that were intended as pure fantasy at the time of their premier have taken on deeper meaning This volume explores neuroscience in science fiction films focusing on neuroscience and psychiatry as running themes in SF and finding correlations between turning points in neuroscience fiction and advances in the scientific field The films covered include The Strange Case of Dr Jekyll and

Books Into Film Robin H. Smiley, 2003 From the beginning the movie industry has looked to literature for source material Many of the Twentieth century s finest writers were brought to the movie making centers especially Hollywood to adapt their own books into screenplays More often another writer or writers would be given the assignment of turning a book into a workable film script Sometimes the result was a creative leap that expanded and illuminated the original work Frequently it wasn t In the 60 plus essays collected in Books into Film Robin H Smiley explores the creative process that puts words together into a book then translates those words into speech and image and action on film Drawing upon his experience as a writer and screenwriter and a lifelong student and fan of the movies the author thoughtfully considers a wide range of books from high comedy to darkest noir from science fiction to melodrama and the films made from them Book jacket Howl-o-ween Gary L.
