Colonial Evangelism:

Colonial Evangelism Thomas O. Beidelman, 1982 **Colonial Evangelism** Thomas O. Beidelman, Spreading the Gospel in Colonial Virginia Edward L. Bond, 2005-01-01 Due to a perceived lack of resources historians of colonial era Virginia have generally heaped their attention on regional politics and virtually ignored the area's rich religious history. Even at a time of revived interest in Virginia's religious atmosphere few scholars have opted to examine what is perhaps one of the region's most valuable primary resources: sermon literature. Edward L. Bond offers a reappraisal of religion's place in the colonies, fully chronicling as well as contextualizing the practice of religion and church activities in early America. He explains the inextricable ties between religious life and community life, setting the stage for sermons and original documents that color in a vibrant picture of life in the Virginia colony. The sermons appear as they do in the original, with all notes and marginalia intact. Bond's own notes provide definitions of obscure words and terms, explanations of arcane allusions, and references for unattributed citations. His commentary vastly enriches our appreciation, not only of the texts but also of their writers and the important role these clergymen played in shaping the young nation. *Spreading the Gospel in Colonial Virginia* is fascinating reading for armchair and professional historians alike and is an ideal teaching tool for courses in early American history.

The Great Awakening Thomas S. Kidd, 2008-10-01 In the mid-eighteenth century Americans experienced an outbreak of religious revivals that shook colonial society. This book provides a definitive view of these revivals, now known as the First Great Awakening, and their dramatic effects on American culture. Historian Thomas S. Kidd tells the absorbing story of early American evangelical Christianity through the lives of seminal figures like Jonathan Edwards and George Whitefield, as well as many previously unknown preachers, prophets, and penitents. The Great Awakening helped create the evangelical movement, which heavily emphasized the individual's experience of salvation and the Holy Spirit's work in revivals. By giving many evangelicals radical notions of the spiritual equality of all people, the revivals helped breed the democratic style that would come to characterize the American republic. Kidd carefully separates the positions of moderate supporters of the revivals from those of radical supporters, and he delineates the objections of those who completely deplored the revivals and their wildly egalitarian consequences. The battles among these three camps, the author shows, transformed colonial America and ultimately defined the nature of the evangelical movement.

Converting Colonialism Dana L. Robert, 2008-01-02 Series: Studies in the History of Christian Missions (SHCM). In this volume leading historians of Christianity in the non-Western world examine the relationship between missionaries and nineteenth-century European colonialism and between indigenous converts and the colonial contexts in which they lived. Forced to operate within a political framework of European expansionism that lay outside their power to control missionaries and early converts, variously attempted to co-opt certain aspects of colonialism and to change what seemed prejudicial to gospel values. These contributors are the leading historians in their fields, and the concrete historical situations that they explore show the

real complexity of missionary efforts to convert colonialism Contributors J F Ade Ajayi Roy Bridges Richard Elphick Eleanor Jackson Daniel Jeyaraj Andrew Porter Dana L Robert R G Tiedemann C Peter Williams The Palgrave Handbook of Christianity in Africa from Apostolic Times to the Present Andrew Eugene Barnes, Toyin Falola, 2024-03-07 This comprehensive Handbook provides chapter length surveys of the history of Christian missions and Christian churches on the African continent since the time of Christ Africa is rapidly becoming the most Christianized region of the world While common narratives about Christianity tend to present Christianity as a set of ideas and beliefs imposed on Africa from the outside such narratives hold little meaning for African Christians or for those seeking to understand Christianity in Africa as an indigenous faith The aim of the Handbook is to propose a set of scholarly starting points for a new set of narratives The chapters collected here communicate an idea of Christianity as it has been embraced among African peoples at particular historical moments It therefore grants voice to the various strands of African Christianity on their own terms and offers scholarly study of what these voices teach us about how the world's most adhered to religion is practiced and understood on the continent of Africa The Pauline Concept of Supernatural Powers Kabiro wa Gatumu, 2009-02-20 The study of

supernatural powers is fraught with vexing hermeneutical challenges which aggravate further in the African context While on the one hand Western anthropology tends to discount the idea of supernatural powers by attempting to explain them away on the other Western biblical scholarship has mainly worked from the premise of demythologizing them But none of these approaches make tangible sense to African scholars for whom supernatural powers constitute an integral component of their spiritual psyche This book based on an examination of over a thousand documentary sources both classic and modern attempts to address the issue of interpreting supernatural powers from an African worldview The author analyzes identifies and critiques major hermeneutical errors and offers a bridging hermeneutic using the method of reader response criticism

The Economy of Evangelism in the Colonial American South Julia Carroll, 2017 Eighteenth century Methodist evangelism supported perpetuated and promoted slavery as requisite for a productive economy in the colonial American South Religious thought of the First Great Awakening emerged alongside a colonial economy increasingly reliant on chattel slavery for its prosperity The records of well traveled celebrity minister and provocateur of the Anglican tradition George Whitefield suggest how Calvinist Methodist evangelicals viewed slavery as necessary to supporting colonial ministerial efforts Whitefield's absorption of and immersion into American culture is revealed in his owning a plantation portraying a willingness to sacrifice the mobility of the disfranchised for widespread consumption of evangelical thought A side effect of this was free and formerly enslaved individuals of African descent gained direct access to itinerancy in the post Revolutionary Atlantic world as evidenced by the multi racial ministerial network of Whitefield's proslavery benefactor Selina Hastings Paradoxically southern evangelicalism appealed to the disfranchised while perpetuating slavery as a socially normative religiously sanctioned institution Christianity in Central Tanzania Mwita Akiri, 2020-02-14 In the telling of the history of

the Church Missionary Society CMS in Tanzania the initiatives contributions and experiences of indigenous teachers have too often been neglected in favour of stories of sacrifices of Western missionaries Bishop Mwita Akiri redresses this bias by using a socio historical approach written from an Afro centric tradition to evaluate the contributions and experiences of indigenous agents in the growth of Christianity in Tanzania This book underscores the significance of oral tradition in African historiography and challenges the claim that foreign missionaries succeeded in destroying African cultures when they are in fact alive and well This much needed research also provides a model for dialogue between the perspective of Christian missions and that of African religious and social heritage in order to continue forward with a Christianity that is authentic and also distinctly African

The Making of Christianity in a Southern African Kingdom Paul Stuart Landau,1992

The Oxford Handbook of Postcolonial Biblical Criticism R. S. Sugirtharajah,2023 The Oxford Handbook of Postcolonial Biblical Criticism is a comprehensive treatment of a relatively new form of scholarship Generally speaking postcolonialism aims to critique and dismantle hegemonic worldviews and power structures while giving voice to previously marginalized peoples and systems of thought This approach has inevitably engaged with the text and reception of the Bible a scripture that Western colonizers introduced to and often imposed upon their colonial subjects With a globally diverse list of contributors the Handbook aims to cover the perspective and context of the authors of the Bible as well as the modern experiences of imperialism resistance decolonization and nationalism

Indigenous Evangelists and Questions of Authority in the British Empire 1750-1940 ,2015-08-25 This is the first full length historical study of indigenous evangelists across a range of societies geographical regions and colonial regimes and the first to focus on the complex issues of authority surrounding the evangelists It answers a need frequently voiced in recent studies of Christian missions Most scholars now acknowledge that the remarkable expansion of Christianity in Africa Asia and the Pacific in the nineteenth and twentieth centuries owed far more to the efforts of indigenous preachers than to the foreign missionaries who loom so large in publications This book addresses that concern making an excellent introduction to the role of indigenous evangelists in the spread of Christianity and the many countervailing pressures with which these individuals had to contend It also includes in the introductory discussions useful statements of the current state of scholarship and theoretical debates in this field
