exchanges He reduced accidents by devising a new color scheme The advent of fluorescent lights brought Birren many new accounts because special color treatment was needed to spare employees eyestrain and keep objects from looking ghastly As million of inexperienced men and women entered industrial jobs in World War II the accident rate rose rapidly Birren surveyed scores of plants often two in one day and at night dictated his suggestions The plants then rushed in paint gangs to put his advice into effect and the accident toll began to fall By using Birren's safety color code according to the U S Army some government plants during the war cut their accident frequencies from 46.14 to 5.58 per thousand He laid out color specifications for almost everything found in or on a naval shore establishment even to altering the color scheme of the helmet worn by men who work on ships and docks In three years the Navy lowered its accident frequency from 6.4 to 4.6 a drop of twenty eight per cent Birren's color code for safety has become internationally accepted in countries as remote from each other as England Japan Italy Argentina Uruguay His work has been acknowledged and recommended by the Council on Industrial Health of the American Medical Association In 1955 the U S State Department sent him to an international congress in Rome on work productivity safety and industrial health He went as the only and world's leading authority on color

Alternative Healing Through Chromotherapy Lilia Seven,2013-11 Chromotherapy or color therapy is a method of therapy that is done using color In itself color does not heal but it has been said that it enables the body to heal itself It probably has something to do with light frequency and vibration and how everything works together to make the whole That is why color therapy is a form of holistic healing it aims to see the whole picture Colors have different frequencies and vibrations and even correspond to a certain note on the musical scale We have heard the words green with envy in the pink of health down in the blues red carpet treatment and such Since the mind and emotions are the most powerful energies on earth people have come to associate colors with emotions and vice versa In order to better understand how color affects our lives let us see how it has evolved from the simple consciousness of early man to how we have come to use it now in our daily lives
