Engagement in 21st Century French and Francophone Culture

Helena Chadderton,Angela Kimyongür,2017-11-08 In the face of the contested legacy of engagement in the Francophone context this interdisciplinary collection demonstrates that French and Francophone writers artists intellectuals and film makers are using their work to confront unforeseen and unprecedented challenges campaigns and causes in a politically uncertain post 9 11 world Composed of eleven essays and a contextualising introduction this volume is interdisciplinary in its treatment of engagement in a variety of forms as it reassesses the relationship between different types of cultural production and society as it is played out in the twenty first century With a focus on both the development of different cultural forms Part 1 and on the particular crises that have attracted the attention of cultural practitioners Part 2 this volume maps and analyses some of the ways in which cultural texts of all kinds are being used to respond to engage with and challenge crises in the contemporary Francophone world

Bertrand Blier Sue Harris,2019-01-04 The most complete study of Blier s work to date Harris traces the director s career from the early 1960s until the present Outlines the forms themes and style which dominate in Blier s work and challenges the many labels that have been used to describe both the corpus of films and the man himself Provides an original and controversial discussion of Blier s alleged misogyny and invites the reader to understand the scatological and corporeal aspects of Blier s filmmaking in terms of long established traditions of popular dramatic culture Brings to light the comic mechanisms underpinning Blier s films and identifies strategies which navigate through one of the most entertaining and disconcerting bodies of work of recent years The first book on Blier published in English
