They Called Them Angels Kathi

Jackson, 2000-06-30 A topical presentation of firsthand accounts from some of the thousands of army and navy nurses who served both stateside and overseas during World War II this book tells the stories of the brave women who used any and all resources to save as many lives as possible Although military nurses could have made more money as civilians thousands chose to leave the warmth and security of home to care for the young men who went off to war They were not saints but vibrant women whose performance changed the face of both military and civilian nursing Jackson's account follows both army and navy nurses from the time they joined the military through their active service to their lives today The jobs done by military nurses were valuable and varied Some worked in clean stateside hospitals Some found themselves nursing in tents or bombed out buildings Others entered hospitals so recently occupied by Axis forces that Nazi propaganda still covered the walls While often treating ordinary accidents and illnesses they were responsible for men with wounds so disfiguring that it took all of their willpower to maintain the hopeful attitude that the men so desperately required From the humorous account of a nurse in her forties who joined the war effort despite the smirks of those much younger to the sorrow shared when men and women were separated and became prisoners of war these are the stories of women who lived under extraordinary circumstances in an amazing time women who even today bear emotional scars along with their lasting pride

G.I.

Nightingales Barbara Tomblin, 2003-11-28 Weaving together information from official sources and personal interviews Barbara Tomblin gives the first full length account of the U S Army Nurse Corps in the Second World War She describes how over 60 000 army nurses all volunteers cared for sick and wounded American soldiers in every theater of the war serving in the jungles of the Southwest Pacific the frozen reaches of Alaska and Iceland the mud of Italy and northern Europe or the heat and dust of the Middle East Many of the women in the Army Nurse Corps served in dangerous hospitals near the front

lines 201 nurses were killed by accident or enemy action and another 1 600 won decorations for meritorious service These nurses address the extreme difficulties of dealing with combat and its effects in World War II and their stories are all the more valuable to women s and military historians because they tell of the war from a very different viewpoint than that of male officers Although they were unable to achieve full equality for American women in the military during World War II army nurses did secure equal pay allowances and full military rank and they proved beyond a doubt their ability and willingness to serve and maintain excellent standards of nursing care under difficult and often dangerous conditions

World War II History Book Laverne Raffield,2021-06-07 More than 59 000 American nurses served in the Army Nurse Corps during World War II Nurses worked closer to the front lines than they ever had before Within the chain of evacuation established by the Army Medical Department during the war nurses served under fire in field hospitals and evacuation hospitals on hospital trains and hospital ships and as flight nurses on medical transport planes The skill and dedication of these nurses contributed to the extremely low post injury mortality rate among American military forces in every theater of the war Overall fewer than 4 percent of the American soldiers who received medical care in the field or underwent evacuation died from wounds or disease This book is a story of Captain Eleanor T Bauman A N C an Army nurse who served in the New Guinea and Papuan Campaigns of World War II It is the story of the nurses who suffered the bombing raids the sniper fire Malaria and Dengue Fever to provide medical care for the sick and wounded **No Time for Fear** Diane Burke Fessler,1997-05-31 No Time for Fear summons the voices of more than 100 women who served as nurses overseas during World War II letting them tell their story as no one else can Fessler has meticulously compiled and transcribed more than 200 interviews with American military nurses of the Army Army Air Force and Navy who were present in all theaters of WWII Their stories bring to life horrific tales of illness and hardship blinding blizzards and near starvation all faced with courage tenacity and even good humor This unique oral history collection makes available to readers an important counterpoint to the seemingly endless discussions of strategy planning and troop movement that often characterize discussions of the Second World War **Combat Nurse** Roberta Love Tayloe,1988 **Angels of Mercy** Betsy Kuhn,1999-10 Relates the experiences of World War II Army nurses who brought medical skills courage and cheer to hospitals throughout Europe North Africa and the Pacific **And If I Perish** Evelyn Monahan,Rosemary Neidel-Greenlee,2007-12-18 In World War II 59 000 women voluntarily risked their lives for their country as U S Army nurses When the war began some of them had so little idea of what to expect that they packed party dresses but the reality of service quickly caught up with them whether they waded through the water in the historic landings on North African and Normandy beaches or worked around the clock in hospital tents on the Italian front as bombs fell all around them For more than half a century these women s experiences remained untold almost without reference in books historical societies or military archives After years of reasearch and hundreds of hours of interviews Evelyn M Monahan and Rosemary Neidel Greenlee have created a dramatic narrative that at last brings

to light the critical role that women played throughout the war From the North African and Italian Campaigns to the Liberation of France and the Conquest of Germany U S Army nurses rose to the demands of war on the frontlines with grit humor and great heroism A long overdue work of history And If I Perish is also a powerful tribute to these women and their inspiring legacy **A Half Acre of Hell** Avis D. Monahan,Rosemary Neidel-Greenlee,2003-07-01 Heroic accounts of American women who faced combat surrender and captivity One chapter in the annals of World War II that must be told Rear Admiral Frances Shea Buckley Nurse Corps

US Navy Ret Before December 1941 drew to a close five navy nurses on Guam became the first American military women of WWII to be taken prisoner by the Japanese More than seventy army nurses survived five months of combat conditions in the jungles of Bataan and Corregidor before being captured only to endure more than three years in prison camps In all nearly one hundred nurses became POWs Many of these army nurses were considered too vital to the war effort to be evacuated from the Philippines Though receiving only half the salary of male officers of the same rank they helped establish outdoor hospitals and treated thousands of casualties despite rapidly decreasing supplies and rations After their capture they continued to care for the sick and wounded throughout their internment in the prison camps When freedom came the U S military ordered the nurses to sign agreements with the government not to discuss their horrific experiences Evelyn Monahan and Rosemary Neidel Greenlee have conducted interviews with survivors and scoured archives to uncover the heroism and sacrifices of these brave women All This Hell adds a tremendous chapter to the narrative of women prisoners in wartime by following a cast of characters almost cinematically through their daily routines and their reflections recorded in letters diaries and interviews Rain Taxi Based upon both oral histories and published biographical and autobiographical accounts the book provides a readable and gripping introduction to the topic for all readers Library Journal *The Army Nurse Corps* U.
