Beaumarchais Et La Chanson:

Beaumarchais et la chanson Philip Robinson,1999 Philip Robinson remonte aux sources contemporaines de Beaumarchais non seulement pour présenter dans la mesure du possible la musique authentique des comédies de Figaro mais aussi pour analyser sa contribution à la dramaturgie des deux pièces jusqu'ici négligée par la critique **Préface qui traite de Pierre Augustin Caron de Beaumarchais et la chanson d'Espagne** Mario Schiff,1912 Publications of the Modern Language Association of America Modern Language Association of America,1923 Vols for 1921 1969 include annual bibliography called 1921 1955 American bibliography 1956 1963 Annual bibliography 1964 1968 MLA international bibliography **Nicolas-Etienne Framery and Lyric Theatre in Eighteenth-century France** Mark Darlow,2003 This study offers a reassessment of the librettist parodist and critic Nicolas Etienne Framery 1745 1810 whom scholars have frequently mentioned in passing but whose career remains little known and poorly understood today Though Framery was also active as a translator of Italian epic works and an occasional author of narrative this study considers his work as a dramatist and theatrical critic and demonstrates his constant concern for progress in French lyric theatre Framery was one of the generation of librettists to write for the new Comédie Italienne after 1762 and his enthusiasm for the innovative opéra comique was unfailing His attention to musical terminology made him one of the major contributors alongside Momigny and Ginguené to the Encyclopédie méthodique musique Unlike better known theorists of music such as Rousseau Framery adopted a progressive stance towards musical theatre and took an active part in the 1770s in the introduction of Italian lyric forms into the French theatre world Parodies of Sacchini and Paisiello are considered here as are Framery's theoretical views on composition on the relationship between music and language and on operatic word setting His progressivism extended to journalism he was the editor of the first periodical on music in France the Journal de musique and a columnist for the Mercure de France and to administrative issues he acted as agent for the Bureau established to protect authors' rights during the Revolution Framery's writings for the Journal for the Encyclopédie méthodique and for the Institut de France show him to be a pioneering thinker on music who preferred the concept of expression to classical theories of music as imitation Framery's approach led him to adopt a career at variance with tradition and it is only now in the light of recent research on the opéra comique that his innovations in the lyric theatre can be properly appreciated *Chants et chansons populaires de La France [Música impresa]*, 2 ,1855 **La musique à la Comédie-française** Jules Bonmassies,1874 **Conferencia.
