Maximize Your Edge Lance D. Watson, 2001. There is no roller coaster, racecar, bungee cord, or game that can give you the thrill that compares to the wild ups and downs of this thing we call life. If your boat has been sunk a time or two, if you've lost your passion for life, this book can help you get back on course. Your past does not have to be your future. Bad decisions, wrong turns, and ill-planned moves do not need to dictate the road ahead. If you're a victim of life's passion killers or if you're being tossed around by turbulence, Lance Watson's practical biblical strategies will help you navigate the complex game of life so that you'll not only survive but experience life like never before. Beyond the Usability Lab Bill Albert, Tom Tullis, Donna Tedesco, 2009-12-21. Usability testing and user experience research typically take place in a controlled lab with small groups. While this type of testing is essential to user experience design, more companies are also looking to test large sample sizes to be able to compare data according to specific user populations and see how their experiences differ across user groups. But few usability professionals have experience in setting up these studies, analyzing the data, and presenting it in effective ways. Online usability testing offers the solution by allowing testers to elicit feedback simultaneously from 1,000s of users. *Beyond the Usability Lab* offers tried and tested methodologies for conducting online usability studies. It gives practitioners the guidance they need to collect a wealth of data through cost-effective, efficient, and reliable practices. The reader will develop a solid understanding of the capabilities of online usability testing when it's appropriate to use and not use, and will learn about the various types of online usability testing techniques. The first guide for conducting large-scale user experience research using the internet. Presents how to conduct online tests with 1,000s of participants from start to finish. Outlines essential tips for online studies to ensure cost-effective and reliable results. [New York School Journal](#), 1899
