Cosmic Consciousness Richard M. Bucke,2007-12-01 Wildly arrogant stunningly bombastic and undeniably fascinating This 1901 work the masterpiece of an eclectic genius whose life encompassed medical science mystical transcendence and prospecting for gold posits a higher form of sentience that only a few humans have ever achieved among them Jesus Buddha Mohammed Dante William Blake and the author himself of course As Bucke shares his metaphysical experience of the cosmic consciousness and offers evidence for the few instances in history of its occurrence it may as well be frankly stated at once that the view of the present editor is that Francis Bacon wrote the Shakespeare plays and poems the reader may well be moved to throw this bizarre and highly intriguing book furiously across the room if the reader can put it down at all that is Canadian mystic and doctor RICHARD MAURICE BUCKE 1837 1902 was a pioneer in the medical treatment of mental illness his famous friendship with Walt Whitman was the subject of the 1992 movie Beautiful Dreamers He also wrote Man s Moral Nature 1879 and an 1883 authorized biography of Whitman

Cosmic Consciousness Richard Maurice Bucke,2000-12 In one of the classic books on the mystical experience Buck outlines the development of various faculties in the history of man and the growth of an individual He believes we are witnessing a continuous psychical revolution and that people like Buddha and Jesus to name a couple are the forerunners of the beings who will eventually inhabit the earth

Cosmic Consciousness Richard Maurice Bucke, Dr,2011-02-21 This pioneering study in mysticism explores the phenomenon of transcendent realization or

illumination Its numerous case studies offer intriguing real life particulars of individuals who experienced personal epiphanies Cosmic Consciousness: A Study in the Evolution of the Human Mind (Hardcover) Richard Maurice Bucke,2018-07-24 Richard M Burke s astonishing treatise on the human mind discusses and attempts to explain mystical experiences in the context of evolutionary change in the brain During his mid thirties Burke underwent a feeling of revelation and felt distinctly enlightened for a short time Although the period of enlightenment passed it had an immense impact upon Burke s outlook steering his personal and professional life in a directions he had never before envisioned He found the experience a permanent boon to his well being and was able to work and enjoy life more than he formerly had This book attempts to explain the various mystical feelings of enlightenment which humans have experienced over the millennia of recorded history Burke s opinion is that these phenomena are becoming commoner over time and represent an evolution of the human mind He postulates that these experiences will become commoner as centuries go by and become accepted as an ordinary then eventually as a necessary part of human life **Cosmic Consciousness** Richard Maurice Bucke,2013-11 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book The below data was compiled from various identification fields in the bibliographic record of this title This data is provided as an additional tool in helping to ensure edition identification Cosmic Consciousness A Study In The Evolution Of The Human Mind reprint Richard Maurice Bucke Innes Sons 1905 Consciousness Cosmic Consciousness Richard Bucke,2018-12-17 Cosmic Consciousness A Study in Evolution of the Human Mind by Richard Maurice Bucke was originally published in 1901 The work attempts to be a scientific theosophical study of illuminated individuals whom he deems to be examples of cosmic consciousness There are many well known religious and artistic figures included in the book however also included are histories of individuals contemporaneous to Buckle himself Bucke believed that enlightened figures come in evolutionary jumps and are primogenitors of a more advanced species Cosmic Consciousness Richard Maurice Bucke,2011-01-27 This work published in 1901 is the culmination of a lifetime of research and contemplation in which Richard Maurice Bucke 1837 1902 expounds his theory of the development and evolution of consciousness in living things He uses his own experiences those of contemporaries such as Tennyson and of historical figures such as Francis Bacon as evidence for moments of higher consciousness and intellect known as cosmic consciousness Bucke s theory is of three states of progressive consciousness attained through evolution The Simple Consciousness of animals Self Consciousness of man to understand his place in the universe and Cosmic Consciousness where man might grow to understand the life and order of the cosmos This pinnacle of

understanding is a progression assisted by evolution that Bucke hopes will one day come to all men A thought provoking book at any time full of optimism for the intellectual future of the human race **Cosmic Consciousness** Richard Maurice Bucke,1923 **Cosmic Consciousness** Richard Maurice Bucke,2016-07-04 Richard Maurice Bucke 18 March 1837 19 February 1902 often called Maurice Bucke was a prominent Canadian psychiatrist in the late 19th century An adventurer during his youth Bucke later studied medicine Eventually as a psychiatrist he headed the provincial Asylum for the Insane in London Ontario Bucke was a friend of several noted men of letters in Canada the United States and England Besides publishing professional articles Bucke wrote three books Man s Moral Nature Walt Whitman and Cosmic Consciousness A Study in the Evolution of the Human Mind which is his best known work **Cosmic Consciousness** Richard Maurice Bucke,2007-09 What is Cosmic Consciousness The present volume is an attempt to answer this question but notwithstanding it seems well to make a short prefatory statement in as plain language as possible so as to open the door as it were for the more elaborate exposition to be attempted in the body of the work Cosmic Consciousness then is a higher form of consciousness than that possessed by the ordinary man **Cosmic Consciousness, a Study in the Evolution of the Human Mind** Richard Maurice Bucke,2015-08-31 Cosmic Consciousness a Study in the Evolution of the Human Mind is a fascinating book for transcendence A Study in the Evolution of the Human Mind Richard Maurice Bucke,1966 *Cosmic Consciousness* M. D. Richard Maurice Bucke,2011-03 Cosmic Consciousness A Study in the Evolution of the Human Mind is Richard Bucke s theory that our mental states are evolving and that to date we have experienced three stages in the development of consciousness the simple consciousness of animals the self consciousness of the vast majority of humans reason self awareness imagination etc and in some cases cosmic consciousness a mystical state of being beyond self consciousness and the next stage of human development Bucke hypothesized that cosmic consciousness is slowly beginning to appear in humans and will eventually spread widely throughout the human race He posited that certain notable individuals throughout history have demonstrated that they have attained cosmic consciousness In the book he cites examples such as Jesus Buddha Mohammed Dante St Paul Francis Bacon William Blake and his close friend Walt Whitman Whitman an American poet and journalist described cosmic consciousness as ineffable light light rare untellable light beyond all signs descriptions and languages At the age of thirty five Bucke found himself in this elevated mental state and he describes in the third person the manifestations leading up to it 1 The person suddenly without warning has a sense of being immersed in a flame or rose colored cloud or perhaps rather a sense that the mind is itself filled with such a cloud of haze 2 At the same instant he is as it were bathed in an emotion of joy assurance triumph salvation 3 Simultaneously or instantly following the above sense and emotional experiences there comes to the person an intellectual illumination quite impossible to describe Like a flash there is presented to his consciousness a clear conception a vision in outline of the meaning and drift of the universe He does not come to believe merely but he sees and knows that the cosmos which to the self conscious mind seems

made up of dead matter is in fact far otherwise is in very truth a living presence He sees that instead of men being as it were patches of life scattered through an infinite sea of non living substance they are in reality specks of relative death in an infinite ocean of life He sees that the life which is in man is eternal as all life is eternal that the soul of man is as immortal as God is that the universe is so built and ordered that without any peradventure all things work together for the good of each and all that the foundation principle of the world is what we call love and that the happiness of every individual is in the long run absolutely certain He goes on to say The person who passes through this experience will learn in the few minutes or even moments of its continuance more than in months or years of study and he will learn much that no study ever taught or can teach After reading Bucke s writings P D Ouspensky the respected Russian Philosopher echoed his comments in his book *Tertium Organum Cosmic Consciousness is a third form which is as far above Self Consciousness as is that above Simple Consciousness* The prime characteristic Cosmic Consciousness is as its name implies a consciousness of the cosmos that is of the life and order of the universe Along with the consciousness of the cosmos there occurs an intellectual enlightenment or illumination which alone would place the individual on a new plane of existence would make him almost a member of a new species *The Creative Conscience as Human Destiny* Eduard Hugo Strauch,2004 *The Creative Conscience as Human Destiny* explains how human nature derived from our biogenetic evolution Whereas human ingenuity and self realization replicate nature s creativity its morphogenesis human conscience epitomizes the integration of organic life its symbiosis These mutual processes became incarnate as humanity s creative conscience Similarly the co evolution of man and woman has enabled us to create cultures and civilization From our intimation of a Supreme Being in nature human beings have also evolved a supraconscience By acknowledging the wisdom of nature we have a philosophy of life for the future

Mindfulness, Now and Zen: The sceptics guide to Ultimate Reality Wally Barr,2017-02-22 This book explores how each of us knows what we know It considers claims that we see only illusions and that behind it all there is an indescribably beautiful reality both a God and a Nirvana The book goes on to explain in simple terms how these two ideas so different on the surface may not be so different at all Ranging across the centuries the book draws on the teachings of a wide variety of thinkers from vastly different cultural philosophical and religious backgrounds The message they each bring is distilled into one consistent story in which our everyday sense of reality can be thought of as a deceptive and rather pale reflection of what s really going on And although our thinking processes are seriously limited the book describes how we can all transcend these limitations and experience Ultimate Reality through the simple practice of mindfulness for mindfulness meditation offers freedom from thinking *Cosmic Consciousness* Ali Nomad,2017-09-25 Man is essentially a spiritual being The source of this spiritual Omniscience we may not in our finite intelligence fully cognize because full cognition would preclude the possibility of finite expression The destiny of man is perfection Man perfected becomes a god Only the gods are immortal we are told Let us consider what this means supposing it to be an axiom of truth Mortality is subject to change and death

Mortality is the manifest the stage upon which man in his life plays many parts Immortality is what the word says it is godhood re cognized in the mortal Im or Om the more general term stands for the Changeless Birthless Deathless Unnamable Power that holds the worlds in space and puts intelligence into man Biologists even though they were to succeed in reproducing life by chemical processes from so called lifeless sterilized matter making so high a form of manifestation as man himself yet could never name the power by which they accomplished it Always there must remain the Unknowable the Absolute *Cosmic Consciousness* Richard Bucke,2018-09-28 Cosmic Consciousness A Study in the Evolution of the Human Mind is Richard Bucke s magnum opus He asserts that humans are evolving from ancient animal consciousness through present ego consciousness to budding transcendent cosmic consciousness This a mystical state experienced by few to date but it is the next stage of human development Bucke hypothesizes that cosmic consciousness is slowly beginning to appear in humans and will eventually spread widely throughout the human race He examines notable individuals throughout history who have demonstrated attainment of cosmic consciousness Such examples include Buddha Plotinus St Paul Jesus Lao Tzu Dante Francis Bacon William Blake and Walt Whitman Whitman an American poet and journalist described cosmic consciousness as ineffable light light rare untellable light beyond all signs descriptions and languages **Cosmic Consciousness** Richard Maurice Bucke,1905
