Cosmos Of Soul A Wake Up Call For Humanity:

The Cosmos of Soul Patricia Cori, 2010-05-18 The first of the pioneering trilogy The Sirian Revelations offers cosmic wisdom to help humankind realize its highest potential The Cosmos of Soul offers a bracing tonic to the shadow of war disease and other grim phenomena of contemporary life The solution according to noted clairvoyant Patricia Cori is to awaken into the richer more meaningful and empowered existence that is our true fate Through her psychic contacts with more evolved beings Cori offers timely insights into the ethics of cloning the dangers of the Internet the truth about the AIDS virus genetic engineering and other information Of special interest are the author's predictions of what to expect after 2012 the closing of the Mayan Calendar a time of galactic events that may change life forever **The Starseed Dialogues**

Patricia Cori, 2010-05-18 The Starseed Dialogues is a clear and concise compilation of questions Patricia Cori has received from readers which she then turned over to the Speakers of the Sirian High Council for answers Cori is among many who predict that life on Earth will change dramatically after December 2012 as we ascend into a fourth dimension beyond spacetime What will happen to us as we approach the point of ascension Does ascending in the light body hurt This book answers these questions and many others about the direct link between our evolving DNA the inner world of Agharta the current earth changes and our shift in consciousness and the significance of visiting sacred sites such as Stonehenge to receive celestial messages As always the Speakers message rings clear do not fear what lies ahead for we are about to experience a glorious transformation of consciousness and although the prophets speak of doom and destruction the darkest hours are already upon us What awaits us is a brilliant new age of truth light and beauty Energy, Soul-Connecting and

Awakening Consciousness Ruthie Smith, 2024-07-30 Drawing on Ruthie Smith's experience as a psychotherapist musician and meditator this book synthesises neuroscience epigenetics biology quantum physics trauma and the links between the body mind and consciousness to provide an overview of energy methods Supported by clinical vignettes throughout Smith provides a full introduction to the field in all its complexity and wonder Ruthie Smith introduces us to the world of working with energy and vibrations and includes a few personal experiences as a musician psychotherapist and meditator In the synthesis between disciplines neuroscience epigenetics biology quantum physics trauma and the links between the body mind and consciousness new approaches are emerging for working with bodymindenergy As part of the shift in the wider world where institutions are going through upheaval and restructuring psychotherapy too is undergoing many changes Energy psychotherapy is relatively new combining relational talking therapy with straightforward and easy self applied energy methods for releasing the dense energies of trauma shame fear and guilt This helps transform conflicted emotional states and shadow energies raising the vibration and bringing about wholeness integration and expanded states of consciousness The book offers an overview of energy methods which the reader can try out for themselves with engaging clinical vignettes to illustrate the wide reach of its applications It also explores developmental models depth psychology maps

of the evolution of consciousness and subtle energy as a framework for safe grounded work Suitable not only for trained therapists who are interested in learning about energy techniques but also for those who wish to incorporate this practice into their daily lives this book illustrates how energy psychotherapy can integrate the physical psychological transgenerational transpersonal and consciousness itself

The New Sirian Revelations Patricia Cori,2017-12-05 In July 1996 during an extraordinary out of body journey through the Milky Way and other galaxies Patricia Cori was reconnected and attuned to a group of interdimensional light beings that she and her many readers came to know through the first Sirian Revelations transmissions as The Sirian High Council During her remarkable mission as their Scribe she has shared the insights of six dimensional Sirian Light Emissaries through the books and teachings that have transformed readers over the past decades Now twenty years from the date of the first transmission Cori shares new revelations that affirm the veracity of past prophecies and transmit new visions for the human race as we ascend through the outer reaches of the fourth dimension into new levels of conscious awareness and parallel realities as we prepare for our imminent emergence Called a real life Indiana Jones by fans and readers around the world Cori is one of the most well known and established authorities on multidimensional realities that challenge the status quo Her messages from distant realms empower readers to look at the dark side to understand it but to focus on the light for all humankind and the earth In this new book the Sirians once again hold us to our responsibility as guardians of this planet with sound direction and advice for how to get through these shifting sands of our transition Their discussions delve into many of the most crucial issues of our time including the merging of human mind and artificial intelligence exoplanetary migration from the earth and what that means to planets that will receive us coming clean about cloning the care and feeding of the human being and the slipping of time as we know it As the struggle between darkness and light is being fought at every level Cori reminds us to take comfort in the fact that the Sirian High Council foresaw and told us how this time of immense upheaval would be the last phase of our passage out of the darkness and into the light of far more illuminated states of being

Atlantis Rising Patricia Cori,2008 Describes the unrecorded history of humanity with a particular emphasis on Atlantean civilization presents a vision of our true destiny as guardians of Earth and free willed conscious participants of our evolving world Provided by publisher

THE ORIGIN OF EVIL Roy Snelling,2017-12-20 What is evil Where did it come from This is a fundamental negative aspect of the Human condition that has engaged theologians mystics and philosophers for centuries And more recently psychologists The whole evolutionary process of life entails the use of free will in an existential sense making mistakes correcting such learning and then moving on But evil is like taking hold of a hiking pilgrim who is just about to climb a steep hill and filling their rucksack with rocks Many different theories have been put forward as to where evil has come from the Devil the Fall Man disobeying God brain malfunction but there is no universal agreement on such The lack of agreement means that there is no universal concentration of effort to power Mankind forward onto what should be a faster evolutionary progression The book explores

every conceivable source of information that is known to us with a much wider scope than most books on the subject have done in the past. All the known World religions present and past including so-called mythologies. Many Native spiritual belief systems. In total over sixty. The book also explores the teachings of various Western Mystical and Esoteric systems. Somewhat controversially it then goes on to explore the possibility of extra-terrestrial visitors to our Planet interfering with Human evolution for their own selfish ends. An examination of the development of Western Psychology over nearly three centuries has provided insights into human behaviour and the physiological workings of the brain. Conventional Society post 19th Century has tended to develop its own set of norms as to what is evil which sometimes feed back into a government's legislative program in respect of criminal law. The book looks at corporate evil perpetrated by governments, banks, financial institutions, the Media, religious administrative bodies and multi-national corporations as these are just as capable of acts of evil as any individual although often on a vastly greater scale. Lastly the book explores the issues of morality, acts with unintended consequences, the issue of intent and personal responsibility. Curiously instead of the last chapter being the conclusion of all the preceding chapters it traces out the whole history of the Cosmos from the first point of creation, spiritual evolution, the Big Bang right through to modern Human society on Earth. Its purpose was to examine if something untoward happened in the process of Cosmic Creation that has set up an imbalance in the functioning of the Universe, the Galaxy, the Solar System, our Planet that has thrown Human evolution out of kilter. *The British National Bibliography* Arthur James Wells, 2002

Stand Like Mountain, Flow Like Water Brian Luke Seaward, 2010-01-01. Self-Help Spirituality. Every now and then you come across an author whose words transform your life and inspire you forever.
